10 successful entrepreneurs in the world: Global Risk Agility and Decision Making Daniel Wagner, Dante Disparte, 2016-08-12 In *Global Risk Agility and Decision Making*, Daniel Wagner and Dante Disparte, two leading authorities in global risk management, make a compelling case for the need to bring traditional approaches to risk management and decision making into the twenty-first century. Based on their own deep and multi-faceted experience in risk management across numerous firms in dozens of countries, the authors call for a greater sense of urgency from corporate boards, decision makers, line managers, policymakers, and risk practitioners to address and resolve the plethora of challenges facing today's private and public sector organizations. Set against the era of manmade risk, where transnational terrorism, cyber risk, and climate change are making traditional risk models increasingly obsolete, they argue that remaining passively on the side-lines of the global economy is dangerous, and that understanding and actively engaging the world is central to achieving risk agility. Their definition of risk agility taps into the survival and risk-taking instincts of the entrepreneur while establishing an organizational imperative focused on collective survival. The agile risk manager is part sociologist, anthropologist, psychologist, and quant. Risk agility implies not treating risk as a cost of doing business, but as a catalyst for growth. Wagner and Disparte bring the concept of risk agility to life through a series of case studies that cut across industries, countries and the public and private sectors. The rich, real-world examples underscore how once mighty organizations can be brought to their knees—and even their demise by simple miscalculations or a failure to just do the right thing. The reader is offered deep insights into specific risk domains that are shaping our world, including terrorism, cyber risk, climate change, and economic resource nationalism, as well as a frame of reference from which to think about risk management and decision making in our increasingly complicated world. This easily digestible book will shed new light on the often complex discipline of risk management. Readers will learn how risk management is being transformed from a business prevention function to a values-based framework for thriving in increasingly perilous times. From tackling governance structures and the tone at the top to advocating for greater transparency and adherence to value systems, this book will establish a new generation of risk leader, with clarion voices calling for greater risk agility. The rise of agile decision makers coincides with greater resilience and responsiveness in the era of manmade risk.

10 successful entrepreneurs in the world: Think Bigger Michael W. Sonnenfeldt, 2017-08-15 What does it take to succeed today both personally and professionally? In looking for answers, one obvious place to start would be to talk to self-made men and women who themselves are successful. That's exactly what Michael W. Sonnenfeldt—an accomplished entrepreneur—has done here in this ground-breaking book. Drawing on the wisdom, insight and experience of members of TIGER 21 (The Investment Group for Enhanced Results in the 21st Century), and supplementing that with additional research and interviews, Sonnenfeldt offers real-world guidance and often counter-intuitive advice and conclusions. Among the things you'll learn are: Why grit and focus trump intelligence just about every time. Why having—and listening to— a wise mentor will create shortcuts to getting more done. What you need to do to avoid getting in your own way. And why. 'Shirtsleeves to shirtsleeves in three generations' can be avoided by taking some simple, commonsense steps. Think BIGGER will inspire you, no matter where you are in your business career. It will also show you that the skills you use to grow wealth can be applied to making the world a better place. Your success can benefit others. Michael W. Sonnenfeldt is the founder and chairman of TIGER 21, the premier peer-to-peer learning network for high-net-worth first generation wealth creators in North America and London. He is an accomplished serial entrepreneur,

philanthropist and most excited that all of his proceeds from this book will support the TIGER 21 Foundation for young entrepreneurs.
