Delirium Trilogy by Lauren Oliver: A Deep Dive into a Dystopian Love Story

delirium trilogy by lauren oliver has captured the hearts of many readers around the world with its unique blend of dystopian fiction, romance, and thought-provoking social commentary. This captivating series explores the concept of love as a dangerous disease in a tightly controlled society, inviting readers to question the very nature of emotion and freedom. If you're curious about what makes this trilogy stand out and why it continues to resonate with fans of young adult literature, let's explore the world Lauren Oliver has created and the themes that make the Delirium trilogy truly unforgettable.

Understanding the Delirium Trilogy by Lauren Oliver

At its core, the delirium trilogy by Lauren Oliver is a young adult dystopian series that centers around the idea that love is a virus—one that society must eradicate to maintain order and peace. The trilogy is set in a near-future America where the government mandates a procedure called the “cure” to eliminate the capacity to feel love, thereby preventing the chaos and suffering it supposedly causes.

Plot Overview

The narrative follows Lena Haloway, a young woman who is just months away from undergoing the cure. As she prepares for this life-changing event, Lena meets Alex, a rebellious boy who has escaped the confines of the controlled society. Through their relationship, Lena begins to question everything she's been taught about love, freedom, and the world around her. The trilogy tracks Lena's journey from conformity to rebellion, exploring themes of identity, resistance, and hope.

Books in the Trilogy

The delirium trilogy by Lauren Oliver consists of three main books:

- **Delirium** – The first book sets the stage, introducing readers to the dystopian world and Lena's awakening to love and rebellion.
- **Raven's Song** – Originally a novella, it provides additional perspectives and deepens the understanding of the story's world and characters.
- **Pandemonium** – The second full-length novel, which follows Lena's life after escaping the city and her struggles in the Wilds.

- **Requiem** – The trilogy’s conclusion, wrapping up the story with Lena’s final battle against the oppressive system.

While Raven’s Song is often considered supplementary, the trilogy’s main arc is told through Delirium, Pandemonium, and Requiem.

Themes and Symbolism in the Delirium Trilogy by Lauren Oliver

One of the reasons why this trilogy stands out in the young adult dystopian genre is because it tackles universal themes with emotional depth and nuance.

Love as a Double-Edged Sword

The central metaphor in the delirium trilogy by Lauren Oliver is the portrayal of love as both beautiful and dangerous. The government’s view of love as a disease reflects society’s fear of vulnerability and chaos, but Lena’s experiences challenge this narrative. The series encourages readers to embrace love’s complexity rather than fear it, highlighting how love can be a source of strength, courage, and change.

Freedom vs. Control

The trilogy explores the tension between individual freedom and societal control. The government’s strict regulations and surveillance symbolize oppressive regimes that prioritize order over personal rights. Lena’s rebellion represents the human spirit’s desire for autonomy and self-expression, making the story resonate with anyone who values freedom.

Identity and Self-Discovery

Throughout the books, Lena undergoes a powerful transformation. From a compliant citizen to a determined rebel, her journey reflects the universal process of self-discovery that many young adults face. The delirium trilogy by Lauren Oliver captures the confusion, fear, and exhilaration of growing up and finding one’s place in the world.

Writing Style and Narrative Techniques

Lauren Oliver’s writing style is another key element that makes the delirium trilogy compelling. Her prose is poetic yet accessible, with vivid descriptions and emotionally

charged scenes that draw readers deeply into Lena's world.

Multiple Perspectives

In addition to Lena's point of view, the trilogy occasionally shifts to other characters, offering a broader perspective on the dystopian society and the resistance movement. This narrative technique enriches the story and allows readers to connect with a diverse cast of characters.

Use of Flashbacks and Memories

Memories and flashbacks are woven into the narrative to reveal the past and Lena's inner conflicts. These moments add layers to the story and help explain the motivations behind characters' actions.

Why the Delirium Trilogy Remains Relevant

Even years after its initial publication, the delirium trilogy by Lauren Oliver remains relevant for several reasons.

Timeless Exploration of Human Emotion

The series' exploration of love, fear, and freedom is timeless. In an age where technology and social structures continue to evolve rapidly, questions about emotional authenticity and personal liberty remain pressing.

Appeal to Young Adult Readers

The trilogy speaks directly to young adults navigating the complexities of identity and relationships. Lena's story offers both a cautionary tale and a hopeful message about the power of choice.

Influence on Dystopian YA Literature

The delirium trilogy helped shape the dystopian young adult genre, inspiring other authors to explore similar themes of control versus individuality. Its success demonstrated that dystopian stories could be both thrilling and emotionally resonant.

Tips for New Readers of the Delirium Trilogy by Lauren Oliver

If you're considering diving into the delirium trilogy by Lauren Oliver, here are a few tips to enhance your reading experience:

- **Start with the first book, *Delirium*:** It sets the foundation for the world and characters, making it essential for understanding the rest of the series.
- **Pay attention to the social commentary:** Beyond the romance, notice how the trilogy critiques societal norms and government control.
- **Take your time with the characters' development:** The emotional growth and dilemmas they face are central to the story's impact.
- **Explore fan communities:** Online forums and book clubs can offer interesting insights and discussions about the series' deeper themes.

Exploring Adaptations and Legacy

While the delirium trilogy by Lauren Oliver has not yet been fully adapted into film or television, there has been significant interest in bringing this powerful story to screen. Fans often imagine how the vivid world and intense emotions could translate visually, and the book's cinematic potential remains a topic of excitement.

The legacy of the delirium trilogy also lives on through its influence on readers and writers alike. Many fans credit Lauren Oliver's storytelling for inspiring their own creativity and passion for literature. The trilogy's message about embracing love and freedom continues to resonate in book clubs, classrooms, and personal libraries worldwide.

Immersing yourself in the delirium trilogy by Lauren Oliver means stepping into a world where love is forbidden but ultimately unstoppable. It's a journey filled with heart, danger, and hope—one that invites readers to question what truly makes us human. Whether you're a fan of dystopian fiction, romance, or stories about courage and change, this trilogy offers a rich, unforgettable experience worth exploring.

Frequently Asked Questions

What is the main premise of the Delirium Trilogy by

Lauren Oliver?

The Delirium Trilogy by Lauren Oliver is set in a dystopian society where love is considered a disease called 'Deliria.' The government mandates a cure to eliminate the ability to love, and the story follows the protagonist, Lena, as she navigates this world and discovers the power of love and rebellion.

Who is the protagonist in the Delirium Trilogy?

The protagonist of the Delirium Trilogy is Lena Haloway, a young woman who initially believes in the society's strict rules but gradually questions the system after falling in love.

How many books are in the Delirium Trilogy and what are their titles?

The Delirium Trilogy consists of three books: 'Delirium,' 'Pandemonium,' and 'Requiem.' These books follow Lena's journey through a dystopian world where love is outlawed.

What themes are explored in the Delirium Trilogy?

The trilogy explores themes such as love and its transformative power, freedom and control, rebellion against oppressive systems, and the struggle between conformity and individuality.

Is the Delirium Trilogy suitable for young adult readers?

Yes, the Delirium Trilogy is a young adult dystopian series that appeals to teens and young adults with its coming-of-age story, romantic elements, and thought-provoking social commentary.

Has the Delirium Trilogy been adapted into other media?

As of now, there have been discussions about adapting the Delirium Trilogy into film or television, but no official adaptation has been released. The series remains primarily popular as a book trilogy.

Additional Resources

Delirium Trilogy by Lauren Oliver: A Critical Exploration of Love and Control in a Dystopian World

delirium trilogy by lauren oliver has captivated readers with its unique blend of dystopian fiction and young adult romance, weaving a narrative that explores the complexities of love, societal control, and rebellion. Since its debut, the trilogy has sparked considerable discussion among literary circles and fans alike, standing out in the crowded field of dystopian literature for its distinctive thematic focus and stylistic execution. Lauren

Oliver, already known for her evocative prose and compelling characters, delves into the emotional and psychological ramifications of a society that criminalizes love, offering readers both a gripping story and a thought-provoking commentary on human connection.

Delirium Trilogy Overview and Context

The delirium trilogy by Lauren Oliver consists of three primary novels: **Delirium** (2011), **Pandemonium** (2012), and **Requiem** (2013). Set in a dystopian future where love is considered a disease called "deliria," the story follows Lena Haloway, a young woman on the cusp of undergoing a mandatory procedure designed to eliminate the capacity to love. The trilogy explores themes of conformity, resistance, and the innate human desire for connection.

Oliver's narrative structure is notable for shifting perspectives and timelines, particularly in **Requiem**, which provides a multi-faceted view of the characters' motivations and the consequences of their choices. This approach enriches the storytelling, providing depth and nuance that transcends typical dystopian young adult fare.

Unique Features of the Delirium Trilogy

One of the standout features of the delirium trilogy by Lauren Oliver is its exploration of love not merely as a romantic ideal but as a social and political construct. Unlike many dystopian series that focus primarily on government oppression or survival, Oliver zeroes in on the intimate, often painful, ramifications of a loveless society.

- **Emotional Depth:** The trilogy delves into the psychology of its characters, particularly Lena, whose internal conflict drives much of the narrative tension.
- **World-Building:** The depiction of a society where love is eradicated is both chilling and plausible, offering a critique of societal attempts to regulate human behavior.
- **Character Development:** Across the three books, characters evolve in response to their circumstances, with relationships that are complex and often ambiguous.

Comparative Analysis with Other Dystopian YA Series

When placed alongside contemporaries like Suzanne Collins' **The Hunger Games** or Veronica Roth's **Divergent**, the delirium trilogy by Lauren Oliver distinguishes itself through its thematic focus on emotional and psychological control rather than physical survival or identity factions.

While **The Hunger Games** emphasizes rebellion against authoritarian rule through physical confrontation and spectacle, and **Divergent** explores societal divisions and self-identity, Oliver's trilogy probes the foundational role of love and emotion in human society. This nuanced approach appeals to readers interested in the ethical and existential

questions raised by dystopian scenarios.

Moreover, the trilogy's pacing and narrative style are more introspective and character-driven, which may appeal to audiences seeking a more literary or contemplative experience within the young adult dystopian genre.

Pros and Cons of the Delirium Trilogy

- **Pros:**

- Original thematic premise centered on love as a disease
- Rich character development and emotional resonance
- Strong world-building with ethical and philosophical undertones
- Engaging prose style that balances action and introspection

- **Cons:**

- Some readers may find the pacing slower compared to other dystopian series
- The focus on romance may alienate readers looking for more action-driven narratives
- Occasional predictability in plot developments

Impact and Reception in the Literary Community

The delirium trilogy by Lauren Oliver has received a spectrum of responses, generally positive but with critical observations regarding its execution. Critics have praised Oliver's ability to craft a believable dystopian world and her exploration of love's multifaceted nature. The series has garnered a loyal fanbase, particularly among young adult readers who resonate with its emotional intensity and ethical questions.

Academic discussions have also emerged around the trilogy's portrayal of love as a controllable and suppressible entity, inviting debate on the limits of state intervention in personal freedoms. The trilogy's adaptation potential has been recognized, with options for screen adaptations discussed, further testifying to its cultural relevance.

Influence on Subsequent YA Literature

The delirium trilogy has influenced later young adult dystopian works by emphasizing emotional complexity and psychological realism. It paved the way for narratives that prioritize internal conflict and moral ambiguity over overt dystopian spectacle. In this sense, Oliver's work contributes to the ongoing evolution of the genre, encouraging writers and readers to explore the intersection of societal control and intimate human experience.

Reading Experience and Accessibility

For readers approaching the delirium trilogy by Lauren Oliver, the series offers a blend of accessible prose and sophisticated themes. The books are widely available in multiple formats, including print, e-book, and audiobook, accommodating diverse reading preferences.

The trilogy's narrative style suits those who appreciate character-driven stories with emotional depth, though it may require patience from readers accustomed to high-paced action novels. The use of multiple perspectives in **Requiem** can enhance comprehension but also adds narrative complexity.

Recommended Audience

- Young adult readers interested in dystopian fiction with a romantic and philosophical angle
- Readers looking for stories that examine societal norms and emotional freedom
- Fans of character-driven narratives that balance action with introspection
- Those intrigued by speculative fiction that interrogates the nature of love and control

The delirium trilogy by Lauren Oliver remains an important work within young adult dystopian literature, offering a distinctive voice and a reflective examination of love's role in society. Its combination of speculative world-building and emotional storytelling invites readers to question not only the premise of a world without love but also the fundamental human need for connection in any society.

Available together as a digital-only package for the first time.

delirium trilogy by lauren oliver: *Requiem* Lauren Oliver, 2013 The final instalment in the internationally bestselling Delirium trilogy. It is the rule of the Wilds You must be bigger, and stronger, and tougher. A coldness radiates through me, a solid wall that is growing, piece by piece, in my chest. He doesn't love me He never loved me. It was all a lie. 'The old Lena is dead', I say, and then push past him. Each step is more difficult than the last; the heaviness fills me and turns my limbs to stone. You must hurt, or be hurt. Lena can build the walls, but what if there's no one left to take them down? The powerful, heartbreaking conclusion to one of the most eagerly awaited, talked-about series is here.

delirium trilogy by lauren oliver: *Delirium: The Special Edition* Lauren Oliver, 2011-08-02
Ninety-five days, and then I'll be safe. I wonder whether the procedure will hurt. I want to get it over with. It's hard to be patient. It's hard not to be afraid while I'm still uncured, though so far the deliria hasn't touched me yet. Still, I worry. They say that in the old days, love drove people to madness. The deadliest of all deadly things: It kills you both when you have it and when you don't. Lauren Oliver astonished readers with her stunning debut, *Before I Fall*. In a starred review, Publishers Weekly called it "raw, emotional, and, at times, beautiful. An end as brave as it is heartbreaking." Her much-awaited second novel fulfills her promise as an exceptionally talented and versatile writer.

delirium trilogy by lauren oliver: *Delirium: The Complete Collection* Lauren Oliver, 2014-06-03 This collection contains the complete text of the three bestselling Delirium novels plus three short novellas about characters in the Delirium world. Lauren Oliver's powerful New York Times bestselling dystopian trilogy presents a world as terrifying as George Orwell's 1984 and a romance as true as Romeo & Juliet. *Delirium*: In a dystopian world where love is declared the deadliest of all diseases, one's only hope is to be cured. Lena is 95 days away from getting her cure when she does the unthinkable. She falls in love. *Pandemonium*: The explosive second book of the Delirium trilogy brings us a new Lena: strong, fierce, and defiant. But the chaos of a loveless world will lead her into the fight of her life. *Requiem*: This exciting finale to Lauren Oliver's New York Times bestselling Delirium trilogy is a riveting blend of nonstop action and forbidden romance in a dystopian United States. The Hana, Annabel, and Raven novellas each center around a fascinating and complex character who adds important information to the series and gives it greater depth.

delirium trilogy by lauren oliver: *Delirium* Lauren Oliver, 2012-02-06 Lena looks forward to receiving the government-mandated cure that prevents the delirium of love and leads to a safe, predictable, and happy life, until right before her eighteenth birthday and her treatment, when she falls in love.

delirium trilogy by lauren oliver: *Pandemonium* Lauren Oliver, 2012-02-28 The second book in Lauren Oliver's New York Times bestselling trilogy about forbidden love, revolution, and the power to choose. In this electrifying follow-up to *Delirium*, Lena is on a dangerous course that takes her through the unregulated Wilds and into the heart of a growing resistance movement. This riveting, brilliant novel crackles with the fire of fierce defiance, romance, and the sparks of a revolution about to ignite.

delirium trilogy by lauren oliver: *Delirium Stories* Lauren Oliver, 2016-05-19 These four short stories are now available in one beautiful paperback edition and include an exclusive sneak peek at Lauren Oliver's brand new novel *Replica* - coming soon! All the stories expand upon and enrich the Delirium world, illuminating events and characters through different perspectives. *HANA* adds nuance to the life-changing summer before best friends Lena and Hana are to be cured - a moment when the girls' paths diverge and their futures are altered forever. *ANNABEL* untangles the mysteries surrounding Lena's mother, detailing her journey from teenage runaway to prisoner of the state. *RAVEN* crackles with the intensity of its title character, the fierce leader of a rebel group in

the Wilds who plays an integral role in the resistance. And ALEX explains what happened to Lena's first love after the events of DELIRIUM, as well as the dark past that he has tried to forget.

delirium trilogy by lauren oliver: *Delirium Stories* Lauren Oliver, 2013-03-05 Three short stories expand the Delirium world, untangling the mysteries surrounding Lena's mother, exploring Raven's rebel group in the Wilds, and detailing the summer before Lena and Hana are to be cured.

delirium trilogy by lauren oliver: *The Book of Shhh* Lauren Oliver, 2016-05-17 A perfect companion to Lauren Oliver's bestselling Delirium trilogy, *The Book of Shhh* expands on excerpts included in the original series. Lauren Oliver delves deeper into the world created in the Delirium trilogy and provides fans with an in-depth look at the terrifying society that her characters live in. This free novella includes case studies, exercises, invocations, quotes, proverbs, and detailed information on amor deliria nervosa. *The Book of Shhh*, or the Safety, Health, and Happiness Handbook, describes the perils of amor deliria nervosa. In today's society, thanks to the cure and its enforcement, our citizens are more productive and committed to their jobs, political organizations, and social impact than ever before. The following excerpts are meant to give portability to a small portion of its materials so that elements of its wisdom may be available for reference on the go. Do not rely on the following excerpts to diagnose, treat, or address evidence of amor deliria nervosa. Should you believe that you or someone in your family might be infected, call the National Health Services hotline immediately, or seek the care of a professional physician at once.

delirium trilogy by lauren oliver: *Rooms* Lauren Oliver, 2014-09-23 The New York Times bestselling author of *Before I Fall* and the Delirium trilogy makes her brilliant adult debut with this mesmerizing story in the tradition of *The Lovely Bones*, *Her Fearful Symmetry*, and *The Ocean at the End of the Lane*—a tale of family, ghosts, secrets, and mystery, in which the lives of the living and the dead intersect in shocking, surprising, and moving ways. Wealthy Richard Walker has just died, leaving behind his country house full of rooms packed with the detritus of a lifetime. His estranged family—bitter ex-wife Caroline, troubled teenage son Trenton, and unforgiving daughter Minna—have arrived for their inheritance. But the Walkers are not alone. Prim Alice and the cynical Sandra, long dead former residents bound to the house, linger within its claustrophobic walls. Jostling for space, memory, and supremacy, they observe the family, trading barbs and reminiscences about their past lives. Though their voices cannot be heard, Alice and Sandra speak through the house itself—in the hiss of the radiator, a creak in the stairs, the dimming of a light bulb. The living and dead are each haunted by painful truths that will soon surface with explosive force. When a new ghost appears, and Trenton begins to communicate with her, the spirit and human worlds collide—with cataclysmic results. Elegantly constructed and brilliantly paced, *Rooms* is an enticing and imaginative ghost story and a searing family drama that is as haunting as it is resonant.

delirium trilogy by lauren oliver: *Pandemonium Enhanced Edition* Lauren Oliver, 2012-02-28 The second book in Lauren Oliver's remarkable New York Times bestselling trilogy about forbidden love, revolution, and the power to choose. In this electrifying follow-up to *Delirium*, Lena is on a dangerous course that takes her through the unregulated Wilds and into the heart of a growing resistance movement. This riveting, brilliant novel crackles with the fire of fierce defiance, romance, and the sparks of a revolution about to ignite.

delirium trilogy by lauren oliver: *Annabel* Lauren Oliver, 2012-12-26 Lena's mother, Annabel, has always been a mystery—a ghost in Lena's past. Until now. Discover her secrets in Lauren Oliver's brilliant original digital story set in the world of New York Times bestsellers *Delirium* and *Pandemonium*. Lena Halloway's mother, Annabel, supposedly committed suicide when Lena was only six years old. That's the lie that Lena grew up believing, but the truth is very different. As a rebellious teenager, Annabel ran away from home and straight into the man she knew she was destined to marry. The world was different then—the regulations not as stringent, the cure only a decade old. Fast forward to the present, and Annabel is consigned to a dirty prison cell, where she nurtures her hope of escape and scratches one word over and over into the walls: Love. But Annabel, like Lena, is a fighter. Through chapters that alternate between her past and present, Annabel

reveals the story behind her failed cures, her marriage, the births of her children, her imprisonment, and, ultimately, her daring escape.

delirium trilogy by lauren oliver: Liesl & Po Lauren Oliver, 2011-10-04 Liesl lives in a tiny attic bedroom, locked away by her cruel stepmother. Her only friends are the shadows and the mice—until one night a ghost appears from the darkness. It is Po, who comes from the Other Side. Both Liesl and Po are lonely, but together they are less alone. That same night, an alchemist's apprentice, Will, bungles an important delivery. He accidentally switches a box containing the most powerful magic in the world with one containing something decidedly less remarkable Will's mistake has tremendous consequences for Liesl and Po, and it draws the three of them together on an extraordinary journey. From New York Times bestselling author Lauren Oliver comes a luminous and magnificent novel that glows with rare magic, ghostly wonders, and a true friendship that lights even the darkest of places.

delirium trilogy by lauren oliver: Replica Lauren Oliver, 2016-10-04 From Lauren Oliver, New York Times bestselling author of *Before I Fall* and the *Delirium* trilogy, comes an epic, masterful novel that explores issues of individuality, identity, and humanity. Lyra's story begins in the Haven Institute, a building tucked away on a private island off the coast of Florida that from a distance looks serene and even beautiful. But up close the locked doors, military guards, and biohazard suits tell a different story. In truth, Haven is a clandestine research facility where thousands of replicas, or human models, are born, raised, and observed. When a surprise attack is launched on Haven, two of its young experimental subjects—Lyra, or 24, and the boy known only as 72—manage to escape. Gemma has been in and out of hospitals for as long as she can remember. A lonely teen, her life is circumscribed by home, school, and her best friend, April. But after she is nearly abducted by a stranger claiming to know her, Gemma starts to investigate her family's past and discovers her father's mysterious connection to the secretive Haven research facility. Hungry for answers, she travels to Florida, only to stumble upon two replicas and a completely new set of questions. While the stories of Lyra and Gemma mirror each other, each contains breathtaking revelations critically important to the other story. Using hotlinks in this electronic edition, readers can decide how they would like to read the book, as with the print version. They can read the story of Gemma or Lyra straight through first, followed by the other girl's story, or they can move between chapters in Lyra's and Gemma's sections. No matter how it is read, *Replica* is an ambitious, thought-provoking masterwork.

delirium trilogy by lauren oliver: Alex: A Delirium Short Story (Ebook) Lauren Oliver, 2015-02-26 When Alex sacrificed himself to save Lena, he thought he was committing himself to certain death, but what he got was almost worse. Imprisoned and tortured by the guards, his mind forces him to relive a past he would rather forget. But in the dark he grows stronger. Both hopeful and terrified, he fights to find his way back to her and the love he still clings to. In this digital story that will appeal to fans of *Delirium* and welcome new admirers to its world, readers will learn of Alex's time after the events of *Delirium*, as well as the dark past that he has tried to forget.

delirium trilogy by lauren oliver: Annabel: A Delirium Short Story Lauren Oliver, 2012-12-26 Lena's mother, Annabel, has always been a mystery - a ghost in Lena's past. Until now. Discover her secrets in Lauren Oliver's brilliant original digital story set in the world of international bestsellers *Delirium* and *Pandemonium*. Through chapters that alternate between her past and present, Annabel reveals the true story behind her failed cures, her marriage, the births of her children, her imprisonment, and, ultimately, her daring escape. You can also take an early look at the first few chapters of *REQUIEM* - the final installment in Lauren Oliver's stunning internationally bestselling *Delirium* series.

delirium trilogy by lauren oliver: Liesl and Po Lauren Oliver, 2011 A tale of one girl, two ghosts and the most powerful magic in the world. Liesl lives in a tiny attic bedroom, locked away by her cruel stepmother. Her only friends are the shadows and the mice - until one night a ghost appears from the darkness. It is Po, who comes from the Other Side. Both Liesl and Po are lonely, but together they are less alone. That same night, an alchemist's apprentice, Will, bungles an

important delivery. He accidentally switches a box containing the most powerful magic in the world with one containing something decidedly less remarkable. Will's mistake has tremendous consequences for Liesl and Po, and it draws the three of them together on an extraordinary journey.

delirium trilogy by lauren oliver: *The Spindlers* Lauren Oliver, 2012-10-02 Evocative of Alice in Wonderland, this novel from New York Times bestselling author Lauren Oliver is a bewitching story about the reaches of loyalty and the enduring power of hope. Perfect for fans of the author's other middle grade novels: *Liesl & Po* and the *Curiosity House* series. Looking across the breakfast table one morning, twelve-year-old Liza feels dread wash over her. Although her younger brother, Patrick, appears the same, Liza knows that he is actually quite different. She is certain that the spindlers—evil, spiderlike beings—came during the night and stole his soul. And Liza is also certain that she is the only one who can rescue him. Armed with little more than her wits and a huge talking rat for a guide, Liza descends into the dark and ominous underground to save Patrick's soul. Her quest is far from easy: she must brave tree-snakes, the Court of Stones, and shape-shifting scawgs before facing her greatest challenge in the spindlers' lair, where more than just Patrick's soul is at stake.

delirium trilogy by lauren oliver: *Panic* Lauren Oliver, 2014-03-04 From New York Times bestselling author Lauren Oliver comes an extraordinary novel of fear, friendship, courage, and hope that Kirkus Reviews says will have readers up until the wee hours, School Library Journal raves is fast-paced and captivating, and E. Lockhart, author of *We Were Liars*, calls a thrill a minute. *Panic* began as so many things do in Carp, a poor town of twelve thousand people in the middle of nowhere: because it was summer, and there was nothing else to do. Heather never thought she would compete in panic, a legendary game played by graduating seniors. She'd never thought of herself as fearless, the kind of person who would fight to stand out. But when she finds something, and someone, to fight for, she will discover that she is braver than she ever thought. Dodge has never been afraid of panic. His secret will fuel him, and get him all the way through the game; he's sure of it. But what he doesn't know is that he's not the only one with a secret. Everyone has something to play for. For Heather and Dodge, the game will bring new alliances, unexpected revelations, and the possibility of first love for each of them—and the knowledge that sometimes the very things we fear are those we need the most.

delirium trilogy by lauren oliver: *Before I Fall* Lauren Oliver, 2010-03-02 Like Adam Silvera's *They Both Die at the End* and Colleen Hoover's *It Ends with Us*, *Before I Fall* raises thought-provoking questions about love, death, and how one person's life can affect so many others. With this stunning debut novel, New York Times bestselling author Lauren Oliver emerged as one of today's foremost authors of young adult fiction. For popular high school senior Samantha Kingston, February 12—Cupid Day—should be one big party, a day of valentines and roses and the privileges that come with being at the top of the social pyramid. And it is...until she dies in a terrible accident that night. However, she still wakes up the next morning. In fact, Sam lives the last day of her life seven times, until she realizes that by making even the slightest changes, she may hold more power than she ever imagined. *Before I Fall* is now a major motion picture Zoey Deutch, Halston Sage, and Kian Lawley. Named to numerous state reading lists, the novel was also recognized as a Best Book of the Year by Amazon, Barnes & Noble, The Daily Beast, NPR, and Publishers Weekly.
