Both exams are essential for analysts, builders, and consultants working with Epic's clinical applications. Passing these tests demonstrates your proficiency in configuring these modules to meet healthcare organization needs.

The Format of the Exam Questions

Epic exam questions for CLN 251 and 252 generally come in multiple-choice format, often scenario-based. This means you'll be presented with realistic clinical or workflow situations and asked to select the best solution or configuration approach.

Questions may cover:
