Higher education institutions need to improve how humanities majors translate their value to the marketplace (The Translation Disconnect). Administrators, faculty, and staff need to think differently and provide humanities majors with a modern perspective on career opportunities (The Perception Disconnect). In order for humanities majors to maintain relevance in the 21st century workplace, institutions need to teach students the dynamics involved with pursuing a vocation (The Vocation Disconnect). Finally, institutions need to help humanities majors increase their self-awareness in order for them to engage in self-determination and prepare for life after college accordingly (The Cultivation Disconnect).
