cue for treason by geoffrey trease: History and the Construction of the Child in Early British Children's Literature Jackie C. Horne, 2016-04-22 How did the 'flat' characters of eighteenth-century children's literature become 'round' by the mid-nineteenth? While previous critics have pointed to literary Romanticism for an explanation, Jackie C. Horne argues that this shift can be better understood by looking to the discipline of history. Eighteenth-century humanism believed the purpose of history was to teach private and public virtue by creating idealized readers to emulate. Eighteenth-century children's literature, with its impossibly perfect protagonists (and its equally imperfect villains) echoes history's exemplar goals. Exemplar history, however, came under increasing pressure during the period, and the resulting changes in historiographical practice - an increased need for reader engagement and the widening of history's purview to include the morals, manners, and material lives of everyday people - find their mirror in changes in fiction for children. Horne situates hitherto neglected Robinsonades, historical novels, and fictionalized histories within the cultural, social, and political contexts of the period to trace the ways in which idealized characters gradually gave way to protagonists who fostered readers' sympathetic engagement. Horne's study will be of interest to specialists in children's literature, the history of education, and book history.

cue for treason by geoffrey trease: The Routledge Companion to Theatre-Fiction Graham Wolfe, 2023-11-14 Novelists have long been attracted to theatre. Some have pursued success on the stage, but many have sought to combine these worlds, entering theatre through their fiction, setting stages on their novels' pages, and casting actors, directors, and playwrights as their protagonists. The Routledge Companion to Theatre-Fiction has convened an international community of scholars to explore the remarkable array of novelists from many eras and parts of the world who have created fiction from the stuff of theatre, asking what happens to theatre on the pages of novels, and what

happens to novels when they collaborate with theatre. From J. W. Goethe to Louisa May Alcott, Mikhail Bulgakov, Virginia Woolf, and Margaret Atwood, some of history's most influential novelists have written theatre-fiction, and this Companion discusses many of these figures from new angles. But it also spotlights writers who have received less critical attention, such as Dorothy Leighton, Agustín de Rojas Villandrando, Ronald Firbank, Syed Mustafa Siraj, Li Yu, and Vicente Blasco Ibañez, bringing their work into conversation with a vital field. A valuable resource for students, scholars, and admirers of both theatre and novels, *The Routledge Companion to Theatre-Fiction* offers a wealth of new perspectives on topics of increasing critical concern, including intermediality, theatricality, antitheatricality, mimesis, diegesis, and performativity.
