Financial Astrology Almanac 2023: Navigating Markets with Celestial Insights

financial astrology almanac 2023 is an intriguing resource for investors, traders, and market enthusiasts who are eager to explore how planetary movements and astrological cycles might influence financial markets. Unlike traditional financial analysis that relies heavily on economic indicators and company fundamentals, financial astrology adds a unique cosmic perspective, blending ancient wisdom with modern finance. This almanac serves as a comprehensive guide that maps out important celestial events throughout 2023, helping market participants anticipate potential trends and turning points.

Whether you are a seasoned astrologer or simply curious about alternative methods for market prediction, the financial astrology almanac 2023 offers valuable insights that could complement your investment strategy. Let's dive into the key elements of this fascinating field, uncover how planetary alignments affect market behavior, and explore practical tips for leveraging astrological timing in your financial decisions.

Understanding Financial Astrology and Its Relevance in 2023

Financial astrology, sometimes referred to as astro-economics, examines the correlation between planetary cycles and market movements. This practice has roots stretching back centuries, with traders and investors historically paying attention to lunar phases, planetary retrogrades, and eclipses to gauge market sentiment and timing.

The Basics of Financial Astrology

At its core, financial astrology analyzes the positions of planets such as Jupiter, Saturn, Mercury, and Mars, and how their interactions might correspond with bullish or bearish trends in stocks, commodities, and currencies. For example, Mercury retrograde is often associated with communication breakdowns and market volatility, while Jupiter's transits can signal expansion and growth phases.

The financial astrology almanac 2023 compiles these planetary cycles and provides a calendar of significant astrological events, enabling you to plan your trades around historically sensitive periods. This approach does not replace traditional analysis but offers a complementary layer of insight that can enhance decision-making.

Key Astrological Events in Financial Astrology Almanac 2023

Every year brings a unique celestial landscape, and 2023 is no exception. The financial astrology almanac 2023 highlights several critical planetary phenomena that have historically impacted financial markets.

Mercury Retrograde Periods and Market Volatility

Mercury retrograde is a well-known astrological event that occurs three to four times a year, lasting about three weeks each. In 2023, Mercury retrograde periods fall in:

- December 29, 2022 – January 18, 2023
- April 21 – May 14, 2023
- August 23 – September 15, 2023
- December 13 – January 1, 2024

During these intervals, financial markets often experience increased uncertainty, miscommunications, and unexpected reversals. Traders might see erratic price movements, delayed announcements, or reversals in previously established trends. The financial astrology almanac 2023 advises caution during these times, recommending either reduced exposure or more conservative trading strategies.

Saturn and Jupiter Transits: Themes of Restriction and Expansion

In 2023, Saturn continues its transit through Aquarius, emphasizing innovation, technology, and social restructuring—sectors to watch for potential shifts. Jupiter moves through Aries and Taurus during the year, bringing bursts of optimism and growth, particularly in finance, real estate, and commodities.

These powerful planetary shifts often coincide with market cycles of restriction or expansion. The financial astrology almanac 2023 suggests monitoring these transits closely to identify periods when certain sectors are more likely to outperform or face headwinds.

Eclipses and Market Turning Points

Solar and lunar eclipses are known for triggering significant changes, both personally and globally. In 2023, the almanac notes eclipses in Aries, Libra, Taurus, and Scorpio—signs associated with action, balance, stability, and transformation.

Historically, eclipses have been linked to market reversals or the start of new trends. Investors using the financial astrology almanac 2023 often look at the weeks surrounding these eclipses to anticipate volatility or trend shifts, adjusting their portfolios accordingly.

How to Use the Financial Astrology Almanac 2023 in Your Investment Strategy

Integrating financial astrology into your trading or investing routine might seem daunting at first, but the financial astrology almanac 2023 breaks down complex celestial data into actionable insights.

Timing Your Trades with Planetary Cycles

One of the most practical uses of the almanac is to time entries and exits in the market by aligning them with favorable or unfavorable planetary positions. For example, avoiding major purchases during Mercury retrograde or capitalizing on Jupiter's positive influence can improve the odds of success.

Sector-Specific Opportunities

Since different planets influence various sectors, the almanac helps identify which parts of the market might thrive during certain transits. Uranus, associated with innovation and technology, could signal tech sector rallies, while Venus might highlight opportunities in luxury goods or finance.

Risk Management and Market Psychology

Financial astrology also provides insights into market psychology. Planetary events can amplify investor emotions like fear, greed, or optimism. By anticipating these emotional cycles, traders can better manage risk and avoid impulsive decisions.

Popular Tools and Resources for Financial Astrology in 2023

For those interested in exploring financial astrology further, the financial astrology almanac 2023 can be complemented by several tools and platforms.

- **Astrological Calendars:** Digital or printed calendars that mark key planetary events and aspects.
- **Market Astrology Software:** Applications that analyze historical market data alongside planetary positions.
- **Expert Forecasts and Newsletters:** Subscriptions offering regular updates on astrological trends impacting markets.
- **Books and Courses:** Educational material to deepen understanding of astro-finance principles.

Utilizing these resources alongside the financial astrology almanac 2023 can enhance your ability to interpret and apply astrological insights effectively.

Debunking Myths and Embracing a Balanced Approach

While financial astrology can offer intriguing perspectives, it's important to approach it with a balanced mindset. The financial astrology almanac 2023 should not be seen as a crystal ball guaranteeing profits but rather as a supplementary tool that provides additional layers of understanding.

Skepticism is healthy, and integrating astro-financial data with solid fundamental and technical analysis creates a more robust framework for decision-making. Many successful traders who use astrology emphasize the importance of discipline, risk management, and continuous learning alongside astrological cues.

Exploring the financial astrology almanac 2023 with an open yet critical eye can enrich your approach to markets, helping you navigate the inevitable ups and downs with greater awareness and confidence.

As the year unfolds, this almanac remains a valuable companion for anyone curious about the cosmic rhythms that might subtly influence our financial world.

Frequently Asked Questions

What is the Financial Astrology Almanac 2023?

The Financial Astrology Almanac 2023 is a publication that combines astrological insights with financial market analysis to help investors identify potential market trends and key dates for trading in 2023.

How can the Financial Astrology Almanac 2023 help investors?

The almanac provides forecasts based on planetary movements and astrological cycles, offering guidance on potential market highs and lows, which can assist investors in timing their trades more effectively.

Who is the target audience for the Financial Astrology Almanac 2023?

The almanac is designed for traders, investors, financial analysts, and enthusiasts interested in combining astrology with financial market strategies for better decision-making in 2023.

What types of financial markets does the Financial Astrology Almanac 2023 cover?

It typically covers a range of markets including stocks, commodities, forex, and cryptocurrencies, providing astrological forecasts relevant to these different asset classes throughout 2023.

Are the predictions in the Financial Astrology Almanac 2023 scientifically proven?

Financial astrology is considered a speculative approach and is not scientifically proven; however, some traders use the almanac as a supplementary tool alongside traditional financial analysis.

Additional Resources

[Financial Astrology Almanac 2023: An In-Depth Review and Analysis](#)

financial astrology almanac 2023 has emerged as a topic of increasing interest among investors, traders, and financial enthusiasts seeking alternative methods to forecast market trends. Combining classical astrological principles with financial market data, this almanac aims to provide unique insights into timing investment decisions through celestial events. As the 2023 edition gains traction, it warrants a thorough examination of its methodology, historical accuracy, and practical applications within contemporary financial strategies.

Understanding the Financial Astrology Almanac 2023

Financial astrology, often termed astro-economics, interprets planetary positions and cycles to predict market behavior. The financial astrology almanac 2023 synthesizes planetary transits, lunar phases, eclipses, and retrograde periods to highlight potentially volatile or opportune windows in equity, commodity, and currency markets.

Unlike traditional financial reports or technical analysis tools, this almanac integrates cosmic patterns with economic calendars to offer a chronological guide for traders. It typically features:

- Dates for significant planetary aspects affecting market sentiment
- Predicted windows for bullish or bearish trends based on astrological cycles
- Historical correlations between celestial events and market movements
- Recommendations for timing entries and exits in various asset classes

The 2023 edition builds upon previous versions by incorporating updated ephemeris data, refined interpretations from financial astrologers, and enhanced visualization tools.

Methodological Foundations and Data Sources

The financial astrology almanac 2023 relies on long-established astronomical calculations combined with market data spanning multiple decades. Key planetary events considered include Mercury retrograde periods, Jupiter-Saturn conjunctions, and lunar eclipses — all believed to influence investor psychology and market volatility.

To ensure credibility, the almanac often cross-references historical price movements around these celestial events with statistical analyses. For example, some studies suggest that major planetary alignments coincide with market inflection points, though causation remains debated.

Importantly, the almanac does not claim deterministic predictions but rather probabilistic windows that require integration with conventional analysis.

Comparative Insights: Financial Astrology Versus Traditional Market Forecasts

Financial astrology remains controversial within mainstream finance due to its unconventional nature. However, the financial astrology almanac 2023 attempts to bridge this gap by providing data-driven insights alongside astrological interpretations.

Advantages

- **Unique Timing Signals:** Astrological cycles may highlight periods not evident through standard technical indicators.
- **Psychological Insights:** Planetary movements can reflect collective investor mood shifts, aiding sentiment analysis.
- **Historical Consistency:** Recurring celestial patterns offer a framework for cyclical market behavior.

Limitations and Criticisms

- **Lack of Empirical Consensus:** Scientific validation of astrology's impact on markets is limited and often anecdotal.
- **Interpretive Variability:** Different astrologers may derive conflicting forecasts from the same data.
- **Overreliance Risk:** Investors relying solely on astrological signals may overlook fundamental or technical factors.

While financial astrology almanac 2023 offers intriguing perspectives, it is best utilized as a complementary tool rather than a standalone strategy.

Key Features of the Financial Astrology Almanac 2023

The latest almanac distinguishes itself through several enhancements aimed at practical usability and accuracy:

Enhanced Ephemeris Accuracy

Updated astronomical data ensures precise timing of planetary events, critical for aligning forecasts with actual market dates. This precision is particularly relevant for short-term traders capitalizing on daily or weekly cycles.

Sector-Specific Forecasts

Unlike prior editions, the 2023 almanac includes targeted insights for sectors such as technology, energy, and precious metals. This granularity helps investors tailor timing strategies in line with sector sensitivities to macroeconomic and astrological influences.

Integration with Economic Calendars

By overlaying astrological data with economic releases (e.g., Federal Reserve meetings, employment reports), the almanac facilitates multi-dimensional analysis, enabling users to anticipate compound effects on market volatility.

Visual Tools and User Interface

A more intuitive design with charts, phase wheels, and color-coded alerts enhances accessibility, making complex astrological concepts easier to interpret for financial professionals.

Analyzing Market Impact: Case Studies from 2022 and Projections for 2023

Reviewing market movements in 2022 alongside astrological forecasts reveals a mixed but noteworthy pattern. For instance, the Mercury retrograde phases corresponded with increased market hesitation and

short-lived reversals, aligning with financial astrology almanac 2023's prior predictions.

Similarly, the Saturn-Uranus square, a major astrological event in 2022, coincided with heightened market uncertainty and sector rotation, reinforcing the potential influence of planetary dynamics.

Looking ahead, the almanac highlights several key dates in 2023:

- **April-May:** Jupiter-Neptune conjunction potentially signaling speculative surges in tech and crypto assets.
- **August Retrogrades:** Multiple planets entering retrograde phases, suggesting increased volatility and cautious trading.
- **December Lunar Eclipse:** Possible turning point for commodities and energy sectors.

While these projections offer a roadmap, real-time market conditions and geopolitical factors remain critical variables.

Who Can Benefit from the Financial Astrology Almanac 2023?

The almanac appeals primarily to:

- **Active Traders:** Seeking alternative timing tools to refine entry and exit points.
- **Long-Term Investors:** Interested in understanding macro cycles and potential market inflection periods.
- **Financial Analysts and Strategists:** Looking to incorporate sentiment and cyclical analysis into broader models.
- **Astrology Enthusiasts:** Exploring the intersection of markets and cosmic influences.

However, novices or those expecting guaranteed outcomes should approach with caution and integrate findings with fundamental and technical analyses.

Final Considerations

The financial astrology almanac 2023 represents an intriguing fusion of ancient wisdom and modern market analysis. Its growing popularity underscores a broader trend toward multidisciplinary approaches in financial forecasting. While it does not replace rigorous financial modeling, its unique timing insights and historical correlations provide an additional lens through which market dynamics can be examined.

As the year unfolds, observing how these astrological indicators align with actual market behavior will be crucial for validating the almanac's practical value. Regardless of one's belief in astrology, the financial astrology almanac 2023 encourages a more holistic contemplation of market forces, blending the celestial and the economic in pursuit of informed decision-making.

financial astrology almanac 2023: *Financial Astrology Almanac 2024* M. G. Bucholtz, 2023-12-16 Price highs and lows of stocks and commodities are part of an interwoven tapestry of planetary aspects and cycles. The 2024 Almanac provides the reader with aspect dates that will assist in taking their trading to a much deeper level.

financial astrology almanac 2023: Financial Astrology Almanac 2020: Trading & Investing Using the Planets M. G. Bucholtz, 2019-12-18 Market analysts and financial media commentators have led individual investors to believe that daily news, quarterly earnings reports

and corporate events drive stock prices. Nothing could be further from the truth. The reality is - there is an overwhelming connection between the ever-changing configurations of orbiting planets and other celestial bodies in our cosmos and the financial markets. Is this connection firmly based in science? Or, are powerful money managers in financial centers around the globe moving prices of equities and commodity futures in accordance with astrological aspects and patterns? Whatever the case may be, investors and traders alike ought to be aware of the connection between astrology and the markets. The connection between astrology and the markets is not new. In the early years of the 20th century successful traders like W.D. Gann, J.P. Morgan and the mysterious Louise McWhirter recognized this connection. They repeatedly used their knowledge of astrology to profitably trade the markets at key astrological occurrences. This 2020 Almanac provides the reader with key astrological dates to watch for each month. These dates align to astrological occurrences that have been shown time and again to have a high propensity to result in price trend changes on stocks, market indices and commodity futures. These key dates have been determined using the same analytical process that Gann and McWhirter would have used. This Almanac then goes deeper to present the reader with critical Quantum Price Lines for various market indices and commodity futures for 2020. Alternative measures of time are then discussed including the Gann Master Cycle (which starts anew in 2020), the Weston Model, the Shmitah Year, Price square Time, and Kabbalah sacred angles. It is the author's sincere hope that after applying the material presented in this Almanac, readers will begin to enjoy an increased level of success with their trading and investing activity.

financial astrology almanac 2023: The Nature of Astrology Bruce Scofield, 2023-01-03 An in-depth examination of how astrology is a form of systems science • Shares modern biological studies offering evidence that our solar system neighbors profoundly affect and shape life on our planet • Explores the early practice of astrometeorology, revealing the links between the solar system, weather, and climate over large spans of time • Looks at the history, philosophy, and methodologies of astrology, as well as its potential future applications in medicine and the social sciences Our ancient ancestors recorded the rhythms of the Sun, Moon, planets, and stars, correlating these rhythms with weather, plant growth, and animal and human behaviors. From these early geocosmic recordings were born calendars, astronomy, and astrology. While astrology is now mostly viewed as subjective fortune-telling, Bruce Scofield argues that astrology is not only a practice but also a science, specifically a form of systems science--a set of techniques for mapping and analyzing self-organizing systems. Providing clear evidence that our solar system neighbors profoundly affect and shape life on our planet, Scofield shares modern biological and climatological studies on the effects of Earth's rotation, the Sun, the Moon, and the rhythms of light, gravity, magnetism, and solar radiation on terrestrial processes. He explores the early practice of astrometeorology, a method of weather forecasting used from ancient times into the Renaissance, revealing the links between the solar system, weather, and climate over large spans of time. He shares his own studies on the correlations between Saturn's position and terrestrial weather as well as presenting a wealth of evidence on astrological effects and the theories and mechanics behind them. Examining the history of astrology, he looks at its earliest foundations in Mesopotamia and its development by the classical Greeks into a mathematically informed body of knowledge. He explores the decline and marginalization of astrology during the Scientific Revolution of the Renaissance and the Enlightenment, when astrology was transformed from a credible science to a controversial practice after being attacked by the Church and then abandoned by experimental scientists. Presenting a broad look at how the cosmic environment shapes nature, the author shows how the practice and natural science of astrology can expand its applications in modern society in such varied fields as medicine, history, and sociology.

financial astrology almanac 2023: Financial Astrology Almanac 2019 M. G. Bucholtz, 2018-12-12 The financial markets are inexorably influenced by Astrology. New Moons, Mercury Retrograde, Venus Retrograde, Planetary Declination, Superior Conjunctions, Elongations and Natal Transits all variously bear curious alignments to short term and long term trend changes on stocks,

indices and commodity futures. This connection between Astrology and the markets is not new. In the early years of the 20th century the most successful traders on Wall Street, including the venerable W.D. Gann and the mysterious Louise McWhirter, recognized the link between the financial markets and Astrology. They repeatedly used their knowledge of Astrology to profitably trade the markets at certain key astrological dates when price fluctuations and trend changes were most likely to occur. This 2019 Financial Astrology Almanac provides the reader with key astrological dates to watch for each month. These dates align to particular astrological occurrences that have been shown time and again to have a high propensity to result in trend changes on stocks, market indices and commodity futures. These key dates have been determined using exactly the same analytical process that Gann and McWhirter would have used. This Almanac then goes deeper to present the reader with critical Quantum Price Lines for various market indices and commodity futures for 2019. Alternative measures of time are also discussed including the Gann Master Cycle, the Weston Model and the mysterious concept of the Shmitah Year. This Almanac is certain to assist the reader in taking trading and investing to a much deeper level.

financial astrology almanac 2023: Financial Astrology Almanac 2015 M G Bucholtz, 2014-09-12 Market analysts and financial media commentators have led individual investors to believe that daily news, quarterly earnings reports and corporate events drive stock prices. Nothing could be further from the truth. The reality is - the financial markets are a reflection of the mass psychological emotion of traders, investors and fund managers. When market participants are feeling positive, they are driven to buy. When they are feeling uncertain or negative, they are driven to sell. So what then drives human emotion? In the opinion of stock trader and author M.G. Bucholtz, the ever-changing configurations of orbiting planets and other celestial bodies in our cosmos influence our body chemistry and thereby drive human emotion. The Sun is the centre of our planetary system. The Sun emits massive amounts of solar radiation in all directions into the vastness of space. This radiation is called solar wind. This solar wind interacts with the magnetic fields around Mercury, Venus, Moon, Mars, Jupiter, Saturn, Uranus, Neptune and Pluto. These planets accept and then disburse the solar wind radiation. As the radiation is disbursed, a goodly amount of it finds its way towards the magnetic field around planet Earth. Changes in the density and speed of solar wind mean that the amount of radiation reaching Earth's magnetic field on a daily, weekly or monthly basis will be ever-changing. As a result, the intensity or flux of the Earth's magnetic field is also constantly changing. The alignment of the orbiting planets in our cosmos plays a significant role in determining how much solar radiation is deflected towards Earth's magnetic field. We all have an electrical field that runs through our tissues. Hence, basic physics demands that changes to the Earth's magnetic field will then induce subtle changes to our bodily electrical circuitry. These subtle changes are what drive our emotional responses. Human emotion changing in response to events in the cosmos is not a new concept. In the early 1900's, the venerable W.D. Gann recognized the connection between changing emotions and price fluctuations on the stock and commodity markets. His trading success realized from applying astro phenomena to the markets is legendary. The astro models pioneered by other figures from this era including Louise McWhirter and Donald Bradley are as powerful today as they were back then. This Almanac begins by offering the reader an overview of the science of Astrology. The detailed examination that then follows will show the reader how: aspect angles between the various planets and the New Moon can set the tone for the equity markets each month. the Moon transiting past certain key points in the zodiac each month aligns to short term trend changes on the New York Stock Exchange. times when Mercury, Venus and Mars are Retrograde align to trend changes on equity and commodity markets. times Mercury, Venus, Mars and Jupiter registering maximum and minimum declination levels equate to trend changes on equity and commodity markets. times when transiting Sun, Mercury, Venus and Mars make hard aspects to planetary positions in the First Trade charts of individual commodity futures are profoundly significant for traders and investors. esoteric mathematical concepts such as Gann Lines and Harmonic Lines are extraordinarily powerful tools for traders and investors to use. It is the author's sincere hope that after applying the material presented in this Almanac, readers will

begin to enjoy an increased level of success with their trading and investing activity. It is further the author's hope that readers will then frequently pause to reflect on the deeper connection between the financial markets, the cosmos and the emotions of mankind.

financial astrology almanac 2023: *Financial Astrology Almanac 2016* M G Bucholtz, 2015-11-10 The financial markets are a reflection of the psychological emotions of traders and investors. These emotions ebb and flow in harmony with the forces of nature. In the early years of the 20th century the most successful traders on Wall Street, including the venerable W.D. Gann and the mysterious Louise McWhirter, recognized the link between the financial markets and psychological emotion. They repeatedly used their knowledge of Astrology to profitably trade the markets at certain key dates when the shifting emotion of market participants would cause price fluctuations and trend changes. This 2016 Financial Astrology Almanac provides the reader with key astrological dates to watch for each month. These dates align to particular astrological occurrences that have been shown time and again to have a high propensity to result in short term trend changes on the Dow Jones Average and the S&P500. These key dates have been determined using exactly the same analytical process that Gann and McWhirter would have used. This Almanac also provides the reader with key dates that align to astrological occurrences which have been shown to have a strong correlation to short term trend changes on selected Commodity Futures contracts.

financial astrology almanac 2023: *A History of the Apocalypse* Catalin Negru, 2023-01-20 Religion. For thousands of years this thing has dictated which people should live and which people should die, what shape our buildings should have or what colors our garments should contain, what food people should eat or what words people should speak. If religion is the opium of the masses, then beliefs about the end of the world are like overdoses. People touched by such beliefs no longer rely on a hidden, personal and intimate god, contemplated upon from the safe distance of the beating human heart. They live with the promise of divine intervention at a grand scale on the current coordinates of space and time. This can be an exceptional motivator and a game changer in terms of civil obedience, both at an individual and collective level. In the name of an immediate and palpable deity people can commit shocking cruelties. However, such belief can also account for some of the most exceptional social developments in human history.

financial astrology almanac 2023: *Extraordinary Popular Delusions and the Madness of Crowds (Complete Edition: Volume 1-3)* Charles Mackay, 2023-12-11 In *Extraordinary Popular Delusions and the Madness of Crowds*, Charles Mackay masterfully examines the psychological underpinnings of mass movements and collective behaviors, revealing the tribulations of human folly across history. This comprehensive three-volume edition delves into notorious phenomena such as tulip mania, witch hunts, and the South Sea Bubble, employing a narrative style that is both accessible and richly descriptive. Mackay's exploration transcends mere historical account, presenting a critical analysis of the irrational impulses that can grip societies, demonstrating how susceptible individuals are to the whims of public opinion and social contagion. Charles Mackay, a Scottish journalist and poet born in 1814, had a keen interest in social psychology and the nature of human behavior. His experiences witnessing the tumult of the Victorian era, marked by economic upheaval and fervent trends, instilled in him a deep skepticism towards the collective mindset. This influenced not only his work as a commentator during his time but also fueled his desire to dissect the recurring patterns of madness that lead people from reason to irrationality. This remarkable work is an essential read for anyone seeking to understand the complexities of human behavior within a societal context. Mackay's enduring insights reveal the persistent relevance of his analyses today, making it a compelling choice for historians, psychologists, and general readers interested in the dynamics of crowd psychology and the often bewildering nature of human folly. In this enriched edition, we have carefully created added value for your reading experience: - A succinct Introduction situates the work's timeless appeal and themes. - The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. - A detailed Historical Context immerses you in the era's events and influences that shaped the writing. - A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. - Reflection questions prompt you to engage

personally with the work's messages, connecting them to modern life. - Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. - Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read.

financial astrology almanac 2023: Financial Astrology David Williams, 1984 Represents the culmination of 30 years research in financial astrology. Williams share the techniques he used to score an 80 percent accuracy rating in predicting the ups & downs of the U.S. economy. Astrological concepts have been incorporated into a method, which does not require any previous astrological or stock market knowledge.

financial astrology almanac 2023: Financial Astrology J. Ross Tyler, 1947

financial astrology almanac 2023: Principia Astrologia de Financial Mba M G Bucholtz, 2017-02-23 There is more to the financial markets than meets the eye. What makes markets rise? What makes them suddenly sell off? Why so volatile? I am of the opinion that the ever-changing positions of the planets in our cosmos affect our emotions are thereby the markets. I am also of the opinion that the markets might sometimes be manipulated by powerful interests at certain planetary alignments and at certain astrological events like Retrogrades and Conjunctions. Financial Astrology, popular and generally accepted in the 1920s and 1930s, has since been suppressed by academics and CFA-touting money managers espousing modern portfolio theory. The main-stream media and advertising industry have also been complicit. Principia Astrologia de Financial is a 3-part series of learning courses created for traders and investors who at a visceral level know there is more to the markets than meets the eye. The motivation for crafting this material is to ensure that the connection between Astrology and the financial markets does not become lost forever. The material contained herein will show you the principles behind Financial Astrology and provide you with the skills you need to gain an edge in today's turbulent markets. After mastering this easy-to-understand material, your paradigm view of the financial markets will forever be altered.
