danielle knight character analysis: *The Humble Story of Don Quixote* Cesáreo Bandera, 2006

Don Quixote is often called the first modern novel; many would argue it is the greatest novel ever written. But compared with other world masterpieces--from the Iliad to Paradise Lost, or from Oedipus the King to Hamlet or Life is a Dream, for example--the storyline of Don Quixote is remarkably uninspiring and lowly: a middle-aged man becomes mad reading novels and makes a fool of himself by believing he is a hero. The first great modern novel is a warning about the reading and

the writing of novels. In this original study by Ces reo Bandera, the intimate connection between the simplicity and humility of the story and its greatness is explored. Other comparisons are also made: the story of the picaresque rogue, on the one hand, and the psychological insights of the pastoral novel, on the other. Through these analyses the meaning and significance of Cervantes' novel are developed. The book takes into critical account Mikhail Bakhtin's theory of the novel, as well as Michel Foucault's views about madness and civilization, in order to bring into relief the modernity of Don Quixote. From another angle the contrasting views on human desire of such critics as Unamuno and Ren Girard become central to a new understanding of Don Quixote's madness, as well as to the development of the main connection between the humility of the story and its greatness. ABOUT THE AUTHOR: Ces reo Bandera, professor emeritus of Spanish literature at the University of North Carolina at Chapel Hill, is author of several books and numerous essays in English and Spanish including *The Sacred Game: The Role of the Sacred in the Genesis of Modern Literary Fiction*. PRAISE FOR THE BOOK: The originality of Bandera's approach and the novelty of his focus are grounded not only on a solid knowledge of history and literary theory, but also of philosophy, history of religion, anthropology, etc. Bandera's study attracts from its first pages by confronting the reader with concepts which are fundamental to an understanding of the culture and literature of the West in the 17th century.--Jos Mar a D ez Borque, Madrid, Universidad Complutense We are dealing with a book different from all others that have come out on the occasion of the Fourth Centenary. It is full of intuitions, accurate judgments, and, above all it is] organized and written by an author ready to make tabula rasa of all Cervantine bibliography in order to reexamine ab ovo the state of questions that are still relevant to those who study the best classical novel.--H ctor Brioso, Universidad de Alcal Bandera discusses the historical, social, and spiritual developments that, in the Renaissance, made a revival of the old epic an impossibility and paved the way to the invention of the modern novel. . . . He presents an immensely intelligent, sensitive, innovative, and readable book on this immortal work.--Ren Girard, Member of the French Academy, Honorary President of the Colloquium on Violence and Religion Bandera . . . offers an insightful analysis of Cervantes' techniques, including mimesis, parody, and irony. . . . Highly recommended. -- M.V. Ekstrom, Choice The book] contains brilliant insights into the picaresque and the pastoral. -- Julio Baena, Renaissance Quarterly Professor Bandera enriches our understanding of the literature of the period with acute and instructive insights.--Edwin Williamson, Bulletin of Spanish Studies

danielle knight character analysis: *Madness, Language, Literature* Michel Foucault, 2023-04-18 Newly published lectures by Foucault on madness, literature, and structuralism. Perceiving an enigmatic relationship between madness, language, and literature, French philosopher Michel Foucault developed ideas during the 1960s that are less explicit in his later, more well-known writings. Collected here, these previously unpublished texts reveal a Foucault who undertakes an analysis of language and experience detached from their historical constraints. Three issues predominate: the experience of madness across societies; madness and language in Artaud, Roussel, and Baroque theater; and structuralist literary criticism. Not only do these texts pursue concepts unique to this period such as the "extra-linguistic," but they also reveal a far more complex relationship between structuralism and Foucault than has typically been acknowledged.

Brooks, Danielle DeNigris, Laraine McDonough, 2019-11-04 Humans manifest an acute awareness of the passage of time and capacity for mental time travel, i.e., the ability to mentally place oneself in the past or future, as well as in counterfactual or hypothetical situations. The ability to perceive, estimate, and keep track of time involves multiple forms of representation (temporal concepts and frames of reference) and sensory modalities. Temporal cognition plays a critical role in various forms of memory (e.g., autobiographical memory, episodic memory, prospective memory), future-oriented thinking (foresight, planning), self-concepts, and autonoetic consciousness. This Research Topic addresses the myriad ways that temporal cognition impacts human behavior, how it develops, its clinical relevance, and the extent to which aspects of temporal cognition are uniquely human. Papers in this Research Topic focus on the following: 1) Low-level perceptual mechanisms that track durations, intervals, and other temporal features of stimuli. 2) Inter-relatedness of temporal reasoning and language development. 3) Temporal cognition in children with autism. 4) Cross-domain mappings between space and time across visual and auditory modalities. 5) Assessing mental time travel as a uniquely human capacity. 6) Implications of individual differences in temporal processing for health and well-being.
