by paul chance learning and behavior 7th edition: Manage It!: Hacks for Improving Your Dog's Behavior Juliana DeWillems, 2024-07-31 Most of us see dogs as part of our family and love nearly everything about them. However, there are always going to be behaviors from our dogs that we might want to change. This book outlines simple, effective ways to change your dog's behavior that do not fall under conventional training recommendations. Known as management, these solutions focus on preventing unwanted behaviors from occurring, leading to a more harmonious life with your dog. Each chapter dives into a different behavior issue that dog guardians commonly face, including: • Getting into the trash • Dashing out doors • Jumping on guests • Barking • Pulling on leash • Counter-surfing • And more... Management can give a family immediate relief from the challenging behavior they are experiencing from their dog and allow for progress to be built from there. Sometimes, implementing management prevents dog training services from being needed at all. While some dog training books touch on the concept of management, there is no other book that focuses as much on using this powerful technique as this one does. In this book, you will gain an understanding of what management is and how to use it, as well as learn about dog behavior and the science of learning. Ultimately, Manage It! is about supporting and enriching the human-canine bond through behavior-change solutions that work for both ends of the leash. What reviewers are saying... Finally! by paul chance learning and behavior 7th edition: *Canine Enrichment for the Real World* Allie Bender, Emily Strong, 2019-11-08 In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the experts say about Canine Enrichment: Don't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of *Animal Training: Successful Animal Management Through Positive Reinforcement* Canine Enrichment is a deep dive into what dogs really need and how we can provide it. It's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of *The Other End of the Leash* and *The Education of Will* The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. by paul chance learning and behavior 7th edition: *Ten NEJ život pro vašeho psa* Strongová, Emily, Benderová, Allie, 2021-07-19 Svědomití majitelé psů usilují o to, aby život jejich chlupatých miláčků byl co nejbohatší (tzv. enrichment), a proto jim dopřávají dostatek procházek, kvalitní stravy a zábavy. To je beze sporu správně - ale není to zdaleka vše. Když se na enrichment podíváme celostně, tak to znamená zjištění všech potřeb našeho psa a jejich uspokojení (v rámci našich možností). Tato kniha dvou renomovaných trenérek vám ukáže, co všechno může ovlivňovat pohodu vašeho psa a co můžete udělat pro to, aby byla co největší. K pochopení toho, co pes potřebuje, ho předně musíme dobře poznat a nespoléhat při tom na mýty a po generace zažité mylné představy o tom, jací psi jsou a jak fungují. Proto tato knížka není jenom o hračkách a hraní, ale také o tom, jací psi doopravdy jsou a jaké je spektrum jejich fyzických, sociálních a instinktivních potřeb, protože jen tak se můžeme dobrat k tomu, co naši psi opravdu potřebují a jak můžeme jejich potřebám vyjít vstříc v našem každodenním soužití. A rozhodně se nejedná o nějaké zbytečné psí rozmazlování - jde totiž o to, že spokojený pes = bezproblémový pes
