tucker carlson ben shapiro interview: Race-Baiter: How the Media Wields Dangerous Words to Divide a Nation Eric Deggans, 2012-10-30 Gone is the era of Edward R. Murrow and Walter Cronkite, when news programs fought to gain the trust and respect of a wide spectrum of American viewers. Today, the fastest-growing news programs and media platforms are fighting hard for increasingly narrow segments of the public and playing on old prejudices and deep-rooted fears, coloring the conversation in the blogosphere and the cable news chatter to distract from the true issues at stake. Using the same tactics once used to mobilize political parties and committed voters, they send their fans coded messages and demonize opposing groups, in the process securing valuable audience share and website traffic. Race-baiter is a term born out of this tumultuous climate, coined by the conservative media to describe a person who uses racial tensions to arouse the passion and ire of a particular demographic. Even as the election of the first black president forces us all to reevaluate how we think about race, gender, culture, and class lines, some areas of modern media are working hard to push the same old buttons of conflict and division for new purposes. In Race-Baiter, veteran journalist and media critic Eric Deggans dissects the powerful ways modern media feeds fears, prejudices, and hate, while also tracing the history of the word and its consequences, intended or otherwise.

tucker carlson ben shapiro interview: Facts & Furious Ben Shapiro, 2024-07-10 The facts speak for themselves. Under Democratic control, America has devolved into a battleground for culture wars, corruption and criminal insanity. For the left, conservatism is more of a threat to America than terrorism. Where's the "equity" and "inclusion" among all this "diversity"? In this collection of columns, Ben Shapiro runs the gamut on the political dumpster fire that has been burning since Joe Biden became president. In *Forward*, Yang reveals that UBI and the threat of job automation are only the beginning, diagnosing how a series of cascading problems within our antiquated systems keeps us stuck in the past—imperiling our democracy at every level. With America's stagnant institutions failing to keep pace with technological change, we grow more polarized as tech platforms supplant our will while feasting on our data. Yang introduces us to the various "priests of the decline" of America, including politicians whose incentives have become divorced from the people they supposedly serve. The machinery of American democracy is failing, Yang argues, and we need bold new ideas to rewire it for twenty-first-century problems. Inspired by his experience running for office and as an entrepreneur, and by ideas drawn from leading thinkers, Yang offers a series of solutions, including data rights, ranked-choice voting, and fact-based governance empowered by modern technology, writing that "there is no cavalry"—it's up to us. tucker carlson ben shapiro interview: *The Future of the Presidency, Journalism, and Democracy* Robert E. Gutsche, Jr., 2022-04-19 This volume examines the effects of Donald Trump’s presidency on journalistic practices, rhetoric, and discourses. Rooted in critical theory and cultural studies, it asks what life may be like without Trump, not only for journalism but also for American society more broadly. The book places perspectives and tensions around the Trump presidency in one spot, focusing on the underlying ideological forces in tensions around media trust, Trumpism, and the role of journalism in it all. tucker carlson ben shapiro interview: *Worlds at Stake* Aaron Saad, 2022-10-31T00:00:00Z The intensifying climate crisis has put the world on high alert. For those living in the high-consuming, high-polluting swaths of the world, it is clear that something about our society, our politics, our economy — our very way of life — must change. But the nature of those necessary changes is a source of seemingly intractable dispute. Does the answer lie in stimulating the dynamism of capitalist market forces with a carbon price, or in the deployment of new, climate-engineering technologies? Or does it lie in still more radical changes — something akin to a wartime-like mobilization to rapidly build a more just post-carbon world, or a shift to an ecologically bounded society that has transcended perpetual capitalist growth? Our ideologies — the competing ways we believe the world should be — powerfully affect how we see the problem of climate change and what we think ought to be done about it. In this highly original and accessible book, Saad presents an erudite survey of political perspectives and ethical arguments about how we should respond to the climate crisis. By arranging these approaches into two broad categories of “system preserving” and “system changing” frameworks, Saad takes the reader on a journey through competing ideas about how we can address our collective responsibility to create a livable global

future.

tucker carlson ben shapiro interview: Power in Ideas Kirsten Adams, Daniel Kreiss, 2021-05-13 This Element develops an analytical framework for understanding the role of ideas in political life and communication. Power in Ideas argues that the empirical study of ideas should combine interpretive approaches to derive meaning and understand influence with quantitative analysis to help determine the reach, spread, and impact of ideas. This Element illustrates this approach through three case studies: the idea of reparations in Ta-Nehisi Coates's "The Case for Reparations," the idea of free expression in Mark Zuckerberg's Facebook policy speech at Georgetown University, and the idea of universal basic income in Andrew Yang's "Freedom Dividend." Power in Ideas traces the landscapes and spheres within which these ideas emerged and were articulated, the ways they were encoded in discourse, the fields they traveled across, and how they became powerful.

tucker carlson ben shapiro interview: Lions and Scavengers Ben Shapiro, 2025-09-02
INSTANT NEW YORK TIMES BESTSELLER #1 New York Times bestselling author Ben Shapiro examines the current state of America and Western civilization, and poses a question: will we be Lions, or will we be Scavengers? In a world split between noble Lions and destructive Scavengers, only the brave can lead the way. Acclaimed writer and conservative thought leader Ben Shapiro knows that at the heart of today's conflicts—political, economic, and cultural—there's a dangerous lie: that all people are equal in ability, and that all inequality stems from oppression and exploitation. With his signature clarity and sharp insight, Shapiro refutes that lie, emphasizing that in a free country, inequality is rooted in differences of talent and work ethic—not oppression—and that the best solution to lack of success lies in duty and virtue. Lions, like America's founding fathers, strive for the highest good, building systems that promote freedom, prosperity, and equality of opportunity. Meanwhile, Scavengers degrade these ideals, spreading resentment and entitlement that threaten to dismantle the foundations of Western civilization. In Lions and Scavengers, Shapiro invites you to take up the mantle of the Lion and defend the principles that shape the freedom of a fair, powerful society. With the stakes higher than ever, this book is a gripping exploration of the ongoing war between those who cherish our nation and those who seek to undermine it. The triumph of the Lions is essential for America's continued success. It's a rallying cry for those who refuse to

how to the Scavengers' demands. It's time to fight back.

tucker carlson ben shapiro interview: Unyielding Thomas L. Rempfer, 2024-06-11

Unyielding tackles a recurring topic of national importance as a history lesson for future generations. Controversial illegal medical mandates impacted military populations for many decades, but it was not until the COVID-era that the American people witnessed similar overreach. Colonel Tom “Buzz” Rempfer’s memoir retraces the anthrax vaccine history since it marked the first time the military was served with court rulings condemning premeditated illegal experimentation on our nation’s troops. The advent of COVID mandates, imposed on the population in 2021, gave the American people a taste of the mistreatment previously reserved for our nation’s warriors. Legal protections enacted by the Congress to guard against medical experimentation, meant to ensure safe, effective, and FDA-approved products, were instead adulterated to foist mandates on American society. According to the FBI, the motive for the anthrax letter lab leaks in 2001 was to “rejuvenate” the “failing” anthrax vaccine. Similarly, the suspected Wuhan lab leak two decades later resulted in a push for COVID injections. The pattern of fear-based bioincidents resulting from reckless biodefense enterprises, and lessons not learned with illegal mandates, paralyzed government and military leaders while wreaking havoc on the trust and health of our troops and the American people. Buzz’s decades-long analysis of the breakdowns stands as a unique treatise on the failures of leaders to learn lessons from these enduring clashes and to correct the damage. Future generations will sort out the aftermath, but in the meantime, Colonel Rempfer’s Unyielding effort attempts to ensure that the lessons are not lost.

tucker carlson ben shapiro interview: The Authoritarian Moment Ben Shapiro, 2022-08-02

New York Times Bestseller How far are Americans willing to go to force each other to fall in line? According to the establishment media, the intelligentsia, and our political chattering class, the greatest threat to American freedom lies in right-wing authoritarianism. We've heard that some 75 million Americans who voted for Donald Trump represent the rise of American fascism; that conservatives have allowed authoritarianism to bloom in their midst, creating a grave danger for the republic. But what if the true authoritarian threat to America doesn't come from the political right, but from the supposedly anti-fascist left? There are certainly totalitarians on the political right. But statistically, they represent a fringe movement with little institutional clout. The authoritarian left, meanwhile, is ascendant in nearly every area of American life. A small number of leftists--college-educated, coastal, and uncompromising--have not just taken over the Democratic

Party but our corporations, our universities, our scientific establishment, our cultural institutions. And they have used their newfound power to silence their opposition. The authoritarian Left is aggressively insistent that everyone must conform to its values, demanding submission and conformity. The dogmatic Left is obsessed with putting people in categories and changing human nature. Everyone who opposes it must be destroyed. Ben Shapiro looks at everything from pop culture to the Frankfurt school, social media to the Founding Fathers, to explain the origins of our turn to tyranny, and why so many seem blind to it. More than a catalog of bad actors and intemperate acts, *The Authoritarian Moment* lays bare the intolerance and rigidity creeping into all American ideology - and prescribes the solution to ending the authoritarianism that threatens our future.

tucker carlson ben shapiro interview: *The Right Side of History* Ben Shapiro, 2019-03-19 A #1 NEW YORK TIMES BESTSELLER! Human beings have never had it better than we have it now in the West. So why are we on the verge of throwing it all away? In 2016, New York Times bestselling author Ben Shapiro spoke at the University of California-Berkeley. Hundreds of police officers were required to protect his speech. What was so frightening about Shapiro? He came to argue that Western civilization is in the midst of a crisis of purpose and ideas; that we have let grievances replace our sense of community and political expediency limit our individual rights; that we are teaching our kids that their emotions matter more than rational debate; and that the only meaning in life is arbitrary and subjective. As a society, we are forgetting that almost everything great that has ever happened in history happened because of people who believed in both Judeo-Christian values and in the Greek-born power of reason. In *The Right Side of History*, Shapiro sprints through more than 3,500 years, dozens of philosophers, and the thicket of modern politics to show how our freedoms are built upon the twin notions that every human being is made in God's image and that human beings were created with reason capable of exploring God's world. We can thank these values for the birth of science, the dream of progress, human rights, prosperity, peace, and artistic beauty. Jerusalem and Athens built America, ended slavery, defeated the Nazis and the Communists, lifted billions from poverty, and gave billions more spiritual purpose. Yet we are in the process of abandoning Judeo-Christian values and Greek natural law, watching our civilization collapse into age-old tribalism, individualistic hedonism, and moral subjectivism.
