- **Power Recliners:** Equipped with buttons or a remote control. The manual details how to operate these controls, adjust positions, and troubleshoot if the motor isn't responding.

Maintenance and Care Tips from the Flexsteel Loveseat Recliner Manual

Taking care of your loveseat recliner can extend its life and keep it looking great. The manual offers valuable maintenance advice tailored to the materials and mechanisms used in Flexsteel furniture.

Cleaning Upholstery

- **Fabric Upholstery:** Use a vacuum with an upholstery attachment regularly to remove dust and debris. Spot clean stains with mild soap and water or a fabric cleaner recommended in the manual.
- **Leather Upholstery:** Wipe with a damp cloth and use leather conditioners periodically to prevent cracking and fading.
- **Performance Fabrics:** These are often treated to resist stains and spills, but it's still best to clean spills promptly and follow any specific cleaning instructions provided.

Lubricating the Reclining Mechanism

The manual often suggests applying a silicone-based lubricant to the reclining mechanism's moving parts once or twice a year. This reduces noise and ensures smooth operation. Avoid using oil-based lubricants as they can attract dust and cause buildup.

Checking for Loose Parts and Wear

Regularly inspect bolts, screws, and other fasteners to ensure none are loose. Tightening these components can prevent wobbling and potential damage. Also, keep an eye on the reclining mechanism for any signs of wear or malfunction, and consult the manual for troubleshooting tips.
