fort benning infantry basic training units: *A HERO'S JOURNEY* Mose M. Kinsey, 2024-07-25

What's a Hero? Heroes come in all shapes, sizes, ages, and Male or Female. They are everyday people in our communities and society. The label Hero is given to someone for many reasons. The first thing that comes to mind are acts of bravery on the battlefield; a Police Officer in the line of duty; a Firefighter pulling someone from a burning building. The word Hero is a very complex term and it has evolved over time. A Hero can be someone whom inspires others to do a common good for themselves and others in their community. One that sets high standards for himself or herself. Someone whose deeds and accomplishments are worthy of praise by others. One that overcame tremendous odds against them and inspired others to do the same. They are people whom are not afraid to stand up for what they believe is right. Someone whom helps when the benefit and praise is knowingly going to someone else. Soldiers whom chose to defend our country while knowing and understanding that they may not survive their journey of service to their Country. By Mose M. Kinsey

fort benning infantry basic training units: A Young Soldier Stephen Augustus, 2009-01-13
An intelligent and athletic young man from an upper-middle-class family and an affluent suburban town in New Jersey abruptly leaves home. At the age of nineteen, he winds up alone in Las Vegas for

the winter. In order to bootstrap himself off the floor of the economy, he enlists in the U.S. Army infantry for the enlistment bonus, the promise of college funds, and an adventure. Over the next four years, the young man serves in uniform on three continents. Initially, the new soldier struggles for a year to measure up. Eventually, he becomes a good endurance athlete, a credible young man, and an effective soldier. The Spartan environment and the draconian discipline of the infantry unit impacts the youth. Alarmed by the debauchery around him, he responds by throwing himself into a rigorous self-improvement program. As a coping mechanism, he develops an intellectual philosophy uniquely suited to the infantry. After the familiarity of the army, getting out and pursuing his goal of attending college is a gut check he passes. The solo adventurer travels the Pacific Rim and Western Europe. Then he goes off to a state university in a small rural town. College is not the utopia the high-minded idealist expected. The new veteran is met with considerable hostility in the classroom and animosity on the campus. After four years in the infantry, the man has become very martial, machine-like, and ideological. Issues of identity are manifold. Unforseen readjustment problems manifest. In the isolation of the infantry battalion he has lost contact with the civilian world, and he cannot fathom the values, thinking, and the lifestyles of the students around him. The new civilian possesses few social skills and less knowledge of domestic life. He is a sort of idiot savant living in a world of book, ideas, and concept. Eventually, his mind bends, and his health breaks. Over the next years, the man endures a spiritual struggle to come to terms with his past, accept his present, and plan for an unexpected sort of future. This story explains the following questions: Where does an extremist come from? What forms the mid of an extremist? How is an extremist defused?
