100 most beautiful places in the world: *Cannon Beach* Deborah Cuyle, 2016-06-13 Cannon Beach is a small town nestled off Highway 101 along the Oregon coast. It has been called one of the World's 100 Most Beautiful Places by National Geographic and one of The 100 Best Art Towns in America by author John Villani. Located 80 miles west of Portland and 25 miles south of Astoria, the town is surrounded by the Oregon Coast Range, ocean beaches, and rivers. Only four miles in length, and with a population of less than 2,000 residents, Cannon Beach is a popular and picturesque town catering to almost 1 million visitors annually. Life seems simpler, more beautiful, and quieter here. People stroll along holding hands, enjoying an ice cream cone or a latte, and daydreaming of building a fire later that evening on the beach. The salty air frizzes their hair, and sand is found in every shoe. But no one is bothered by this, because they are at Cannon Beach, with the legendary Haystack Rock.

100 most beautiful places in the world: *American Advance* Rock Dilisio, 2008-09 The French and Indian War is said to be the first true world war, where world powers, Britain and France, collided over the tempting prosperity of North America. Much of the war was fought over the control of an extremely sought after, strategic piece of ground, known as the Forks, where the Allegheny and Monongahela Rivers meet to form the mighty Ohio. Now the City of Pittsburgh, this location was the portal to the west, and control of it would garner possibilities and riches beyond imagination. No other piece of ground on American soil has ever been so coveted. Britain was the ultimate victor, and with it came the opportunities for their American colonists to move westward, and establish communities. Virginia colonists were the first to take advantage. The westward movement began with the construction of a settlers fort, named Fort Vance, which was established ten miles down the Ohio River from Pittsburgh, in what is today Coraopolis, Pennsylvania. This is where the west began.

100 most beautiful places in the world: *I Am the Aleph-Tav* Samuel Koiki, 2018-05-29 Did you know that Jesus appears ten times (1000%) more in the Old Testament than he does in the New Testament. In fact Jesus the Aleph-Tav appears 9612 times (uninterpreted) in the Old Testament but only 983 times in the New Testament. The Aleph-Tav is comprised of the first and last characters of the Hebrew language, just as the alpha and the omega are the first and last characters of the Greek language. The Aleph-Tav is also the Hebrew character symbol believed to be the signature of Christ found only in the Hebrew Bible, represented by the head of a bull and the sign of a cross. Both character symbols clearly point us to Christ, the Lamb of God who died for humanity on the cross of Calvary. *I AM the Aleph-Tav* unveils the presence of Jesus in the Old Testament, first by taking a deep dive into the mystery of the Aleph-Tav. Although this symbol appears almost ten thousand times in the Old Testament, it was never interpreted into any other language, and author Samuel Koiki shows how there are parallels between the Old Testament and the statements Jesus made to John in the book of Revelation, where Jesus proclaimed that he was the Alpha and the Omega, the beginning and the end, in a different way, the Aleph-Tav. Was Jesus telling John that he was there all along when the universe was created in Genesis? Perhaps he was telling John that he indeed is the creator, and that it was he who brought forth the miracles in the Old Testament scriptures. Unraveling the mystery of the Aleph-Tav will answer these questions and lead believers to the truth, abundant living, and freedom from sin, oppression, and the lies of the devil.
