It also guides you through resetting the control panel or diagnosing a possible malfunctioning thermostat.

Ice Maker Not Producing Ice

For ice maker issues, the manual walks you through steps like verifying the water supply line, checking the ice maker's power switch, and inspecting the ice mold for blockages that could cause jams.

Unusual Noises

Refrigerators sometimes emit sounds that can be concerning. The manual explains which noises are normal—like the compressor starting or the defrost cycle running—and which might indicate mechanical problems needing service.
