Applied Epic Training Videos: Unlocking the Full Potential of Your Insurance Management Software

applied epic training videos have become an essential resource for insurance professionals looking to master one of the industry's leading management systems. Whether you're a seasoned agent, a new team member, or an administrator, these videos offer a practical and user-friendly way to learn the ins and outs of Applied Epic. As insurance companies continue to adopt digital solutions to streamline operations, understanding how to navigate and utilize Applied Epic efficiently can make all the difference in productivity and client satisfaction.

In this article, we'll explore how applied epic training videos can enhance your workflow, the benefits of video-based learning for Applied Epic, and tips to get the most out of these resources.

Why Applied Epic Training Videos Are a Game-Changer

Applied Epic is a comprehensive agency management system that integrates client data, policy details, accounting, and communication into one centralized platform. However, its robust feature set can be overwhelming without proper guidance. That's where applied epic training videos come in—they break down complex processes into digestible, step-by-step tutorials that are easy to follow.

Visual Learning for Complex Software

Unlike traditional manuals or text-heavy guides, training videos provide visual demonstrations that show exactly where to click, what to enter, and how to troubleshoot common issues. This hands-on approach is especially effective for software like Applied Epic, where seeing the interface in action helps reinforce learning.

Additionally, video content caters to different learning speeds. Users can pause, rewind, or skip ahead to focus on sections most relevant to their roles, whether it's managing client renewals, processing claims, or running reports.

Up-to-Date Content on New Features

Applied Epic regularly updates its platform with new features and improvements. Keeping up with these changes through traditional learning materials can be a challenge. Training videos, however, can be quickly produced and distributed, ensuring users always have access to the latest tutorials.

Many training providers and software partners maintain extensive video libraries that reflect current software versions and workflows, helping insurance agencies stay ahead in a competitive market.

Key Topics Covered in Applied Epic Training Videos

Applied Epic's versatility means training videos cover a wide range of topics tailored to different user needs. Here are some common themes you can expect from comprehensive training collections:

Client and Policy Management

Understanding how to efficiently manage client information and policy details is fundamental. Videos often cover how to:

- Create and update client profiles
- Link policies to clients
- Track renewals and endorsements
- Navigate coverage details and documentation

These tutorials help agents save time and reduce errors by standardizing data entry and workflow practices.

Accounting and Billing Processes

Applied Epic integrates accounting functions like invoicing, payments, and commission tracking. Training videos walk users through:

- Generating invoices and statements
- Applying payments and adjustments
- Reconciliation of accounts
- Commission calculations and reports

For agency staff responsible for back-office tasks, these videos can drastically improve accuracy and efficiency.

Reporting and Analytics

Data-driven decision-making is key for growing agencies. Applied Epic training often includes tutorials on:

- Running standard and custom reports
- Analyzing sales trends and production reports
- Exporting data for presentations or further analysis

Learning how to generate actionable insights from your data empowers agencies to optimize marketing strategies and operational focus.

Workflow Automation and Communication

Applied Epic features workflow automation tools that reduce manual tasks and improve communication. Training videos highlight how to:

- Set up task reminders and follow-ups
- Use email templates and bulk messaging
- Integrate with other communication platforms

These capabilities help agencies maintain consistent client engagement and internal collaboration.

Benefits of Using Applied Epic Training Videos for Your Team

Investing time in video training can yield numerous advantages beyond simple software familiarity.

Improved Onboarding for New Employees

Bringing new hires up to speed quickly is crucial in fast-paced insurance environments. Applied Epic training videos provide a standardized, accessible way for newcomers to learn the system at their own pace, reducing the burden on senior staff for continuous one-on-one training.

Reduced Errors and Increased Efficiency

Proper training minimizes mistakes that can lead to compliance issues, lost revenue, or customer dissatisfaction. Videos that clearly demonstrate best practices help users avoid common pitfalls and streamline daily tasks.

Ongoing Skill Development

Even experienced users benefit from refresher videos or tutorials on advanced features they may not have explored. This continuous learning culture enhances overall team competency and adaptability.

Cost-Effective Training Solution

Compared to in-person workshops or hiring consultants, video training is often more affordable and scalable. Agencies can provide access to an entire library of tutorials, allowing team members to learn as needed without scheduling conflicts.

Tips for Maximizing Learning with Applied Epic Training Videos

To get the most out of your training experience, consider these practical tips:

Create a Structured Learning Plan

Identify the key functions your team needs to master and select videos accordingly. Organize sessions by role or department to ensure relevance and engagement.

Encourage Hands-On Practice

Watching videos alone isn't enough—encourage users to follow along in the software environment to reinforce skills. Applying concepts in real-time helps solidify knowledge.

Leverage Supplementary Resources

Pair videos with quick reference guides, FAQs, or live Q&A sessions to address questions or clarify complex topics.

Track Progress and Certification

If available, use tools that monitor training completion and offer certificates. Recognition motivates learners and helps management assess readiness.

Stay Updated with New Content

Regularly check for new videos covering software updates or advanced features to keep your team current and competitive.

Where to Find Quality Applied Epic Training Videos

The availability of high-quality training videos has expanded alongside the growing use of Applied Epic software. Here are some reliable sources:

- **Applied Systems' Official Learning Portal:** Offers a comprehensive library of tutorials, webinars, and certifications directly aligned with the software.
- **Industry Training Platforms:** Websites specializing in insurance

technology training often include Applied Epic modules.

- **YouTube and Video Sharing Sites:** Numerous independent consultants and agencies publish free tutorials and tips.
- **Third-Party Training Providers:** Specialized firms provide customized video courses and ongoing support tailored to your agency's needs.

Before committing to any training program, review sample videos to ensure the teaching style matches your team's preferences.

Applied Epic training videos offer a practical, flexible, and engaging path toward mastering one of the insurance industry's most powerful management systems. By integrating these visual learning tools into your agency's training strategy, you empower your team to work smarter, reduce errors, and deliver better service to clients. As the insurance landscape evolves, staying proficient with Applied Epic through continuous video-based education will remain a key competitive advantage.

Frequently Asked Questions

What are Applied Epic training videos?

Applied Epic training videos are instructional materials designed to help users learn how to effectively navigate and utilize the Applied Epic insurance management software.

Where can I find the best Applied Epic training videos?

The best Applied Epic training videos can be found on the official Applied Systems website, their YouTube channel, and through authorized training partners or insurance industry e-learning platforms.

Are Applied Epic training videos suitable for beginners?

Yes, many Applied Epic training videos are created to accommodate beginners, covering basic navigation, data entry, and core functionalities to help new users get started.

Do Applied Epic training videos cover advanced features?

Yes, there are advanced Applied Epic training videos available that cover complex features such as reporting, workflow automation, integration with other systems, and customization options.

Can Applied Epic training videos help improve productivity?

Absolutely, by learning to use Applied Epic more efficiently through training videos, users can streamline processes, reduce errors, and ultimately improve productivity within their insurance agency.

Additional Resources

Applied Epic Training Videos: Enhancing Mastery of Insurance Management Software

Applied Epic training videos have become an essential resource for insurance professionals seeking to maximize their proficiency with one of the industry's leading agency management systems. As insurance agencies increasingly rely on technology to streamline operations, improve client relationships, and manage complex workflows, the need for comprehensive, accessible training tools has never been greater. Applied Epic, a flagship product by Applied Systems, offers extensive functionality, but its depth can present a steep learning curve. Training videos serve as a practical solution to bridge this gap, providing users with on-demand, visual guidance tailored to varying levels of expertise.

Understanding the Role of Applied Epic Training Videos

Applied Epic is a robust agency management system designed to integrate multiple facets of insurance operations including policy management, client servicing, accounting, and reporting. Given its wide-ranging capabilities, new users and even seasoned professionals often require structured learning pathways to unlock the software's full potential. Applied Epic training videos address this need by delivering step-by-step tutorials, demonstrations of key features, and best practice workflows.

Unlike traditional classroom training or static manuals, video-based learning caters to diverse learning styles. Users can pause, rewind, and rewatch segments to ensure comprehension. Furthermore, training videos often simulate real-world scenarios, enhancing practical understanding rather than mere theoretical knowledge.

Key Features of Applied Epic Training Videos

Applied Epic training videos typically cover topics such as:

- **Policy Setup and Management:** Guidance on entering, updating, and managing insurance policies across multiple lines of business.
- **Client and Contact Management:** Tutorials on maintaining accurate client records, tracking interactions, and automating communications.
- **Accounting and Billing:** Instructions on processing invoices, managing commissions, and integrating with financial systems.
- **Reporting and Analytics:** How to generate custom reports to monitor agency performance and client metrics.
- **Workflow Automation:** Demonstrations of implementing automated tasks to improve efficiency.

These videos are often segmented into beginner, intermediate, and advanced levels, allowing users to progressively build their skillset.

Comparative Advantages of Video Training Over Other Learning Methods

Applied Epic training videos stand out when compared to other instructional formats such as user manuals, live webinars, or in-person sessions. Videos combine auditory and visual stimuli, which research shows can improve retention rates. Additionally, they offer flexibility—users can access training materials anytime and anywhere, accommodating the demanding schedules typical of insurance professionals.

In contrast to live webinars, which require attendance at specific times, recorded videos provide asynchronous learning opportunities. This is particularly valuable for agencies with distributed teams or those operating across different time zones. Moreover, video content can be easily updated and expanded to reflect software updates, regulatory changes, or evolving best practices.

Integration with Applied Epic's Learning Ecosystem

Applied Systems often complements training videos with additional educational resources, such as knowledge bases, certification programs, and community

forums. This integrated approach allows users to deepen their understanding progressively. For example, after watching an applied epic training video on report generation, a user might access detailed documentation for customization options or participate in a forum discussion to troubleshoot specific challenges.

Some agencies also invest in third-party video training providers who specialize in Applied Epic tutorials. These external vendors might offer customized content tailored to a particular agency's workflows, further enhancing the relevance and effectiveness of training.

Evaluating the Effectiveness of Applied Epic Training Videos

While applied epic training videos are widely praised for their convenience and clarity, their effectiveness can vary based on production quality, content relevance, and instructional design. High-quality videos feature clear narration, concise explanations, and engaging visuals such as screen captures, annotations, and interactive elements.

Agencies should consider the following factors when selecting or recommending training videos:

- **Content Accuracy:** Does the video reflect the latest version of the Applied Epic software?
- **Depth of Coverage:** Are complex features explained in sufficient detail?
- **User Engagement:** Are videos designed to maintain viewer interest through pacing and visual aids?
- **Accessibility:** Are captions or transcripts provided for users with hearing impairments?

Feedback mechanisms, such as quizzes or follow-up assessments, can also enhance learning outcomes by reinforcing key concepts.

Challenges and Considerations in Using Training Videos

Despite their advantages, applied epic training videos are not a panacea. Some users may find that video tutorials alone are insufficient for mastering highly customized agency processes or troubleshooting unique issues. In such

cases, supplemental live support or hands-on workshops may be necessary.

Additionally, the sheer volume of available video content can sometimes overwhelm learners. Without a structured training plan or clear learning objectives, users might struggle to identify which videos align with their specific needs. Agencies can mitigate this by curating playlists or developing guided learning paths.

Impact on Agency Productivity and User Competency

The strategic use of applied epic training videos can significantly impact agency productivity. Well-trained users are more likely to leverage automation features, reduce data entry errors, and provide faster client responses. According to industry reports, agencies that invest in ongoing Applied Epic training experience measurable improvements in operational efficiency and client satisfaction.

Moreover, training videos facilitate knowledge retention within agencies by enabling new hires to onboard quickly and experienced employees to stay updated on software enhancements. This continuity contributes to stronger team performance and reduces dependency on individual experts.

Applied Epic continues to evolve with regular updates that introduce new capabilities and integrations. Training videos play a critical role in ensuring users adapt seamlessly, minimizing disruption and maximizing return on technology investment.

As insurance agencies navigate an increasingly digital landscape, the strategic deployment of applied epic training videos represents a prudent approach to workforce development. By combining accessibility, depth, and practical relevance, these videos empower users to harness the full functionality of Applied Epic, driving operational excellence and sustained competitive advantage.

applied epic training videos: The Advancing World of Applied Electromagnetics Akhlesh Lakhtakia, Cynthia M. Furse, Tom G. Mackay, 2024-04-08 This book commemorates five decades of research by Professor Magdy F. Iskander (Life Fellow IEEE) on materials and devices for the radiation, propagation, scattering, and applications of electromagnetic waves, chiefly in the MHz-THz frequency range as well on electromagnetics education. This synopsis of electromagnetics, stemming from the life and times of just one person, is meant to inspire junior researchers and reinvigorate mid-level researchers in the electromagnetics community. The authors of this book are internationally known researchers, including 12 IEEE fellows, who highlight interesting research

and new directions in theoretical, experimental, and applied electromagnetics. Provides a single-source reference to many of the most significant developments of the past 5 decades in theoretical, experimental, and applied electromagnetics; Offers readers in each sub-discipline discussed current research trends, the state of the art, the chief tools needed in that area, and the vision of a research leader for that area; Includes content of particular interest in Antennas and Propagation, as well as Microwave Theory and Techniques.

applied epic training videos: Proceedings of the International Conference on Artificial Intelligence and Computer Vision (AICV2020) Aboul-Ella Hassanien, Ahmad Taher Azar, Tarek Gaber, Diego Oliva, Fahmy M. Tolba, 2020-03-23 This book presents the proceedings of the 1st International Conference on Artificial Intelligence and Computer Visions (AICV 2020), which took place in Cairo, Egypt, from April 8 to 10, 2020. This international conference, which highlighted essential research and developments in the fields of artificial intelligence and computer visions, was organized by the Scientific Research Group in Egypt (SRGE). The book is divided into sections, covering the following topics: swarm-based optimization mining and data analysis, deep learning and applications, machine learning and applications, image processing and computer vision, intelligent systems and applications, and intelligent networks.

applied epic training videos: *The Peer Guide to Applied Sport Psychology for Consultants in Training* Mark W. Aoyagi, Artur Poczwadowski, Jamie L. Shapiro, 2016-11-10 This new text provides a platform for the influential voices of peers in sport psychology, and addresses areas where peer support and guidance are most valued. A unique addition to the sport psychology literature, this volume is a key resource for developing and established consultants alike.

applied epic training videos: Computer Vision - ECCV 2024 Aleš Leonardis, Elisa Ricci, Stefan Roth, Olga Russakovsky, Torsten Sattler, Gül Varol, 2024-10-24 The multi-volume set of LNCS books with volume numbers 15059 up to 15147 constitutes the refereed proceedings of the 18th European Conference on Computer Vision, ECCV 2024, held in Milan, Italy, during September 29–October 4, 2024. The 2387 papers presented in these proceedings were carefully reviewed and selected from a total of 8585 submissions. They deal with topics such as computer vision; machine learning; deep neural networks; reinforcement learning; object recognition; image classification; image processing; object detection; semantic segmentation; human pose estimation; 3d reconstruction; stereo vision; computational photography; neural networks; image coding; image reconstruction; motion estimation.

applied epic training videos: Computer Vision - ECCV 2024 Workshops Alessio Del Bue, Cristian Canton, Jordi Pont-Tuset, Tatiana Tommasi, 2025-05-27 The multi-volume set LNCS 15623 until LNCS 15646 constitutes the proceedings of the workshops that were held in conjunction with the 18th European Conference on Computer Vision, ECCV 2024, which took place in Milan, Italy, during September 29–October 4, 2024. These LNCS volumes contain 574 accepted papers from 53 of the 73 workshops. The list of workshops and distribution of the workshop papers in the LNCS volumes can be found in the preface that is freely accessible online.

applied epic training videos: *Computer Vision - ECCV 2020* Andrea Vedaldi, Horst Bischof, Thomas Brox, Jan-Michael Frahm, 2020-10-06 The 30-volume set, comprising the LNCS books 12346 until 12375, constitutes the refereed proceedings of the 16th European Conference on Computer Vision, ECCV 2020, which was planned to be held in Glasgow, UK, during August 23-28, 2020. The conference was held virtually due to the COVID-19 pandemic. The 1360 revised papers presented in these proceedings were carefully reviewed and selected from a total of 5025 submissions. The papers deal with topics such as computer vision; machine learning; deep neural networks; reinforcement learning; object recognition; image classification; image processing; object detection; semantic segmentation; human pose estimation; 3d reconstruction; stereo vision; computational photography; neural networks; image coding; image reconstruction; object recognition; motion estimation.

applied epic training videos: *The Horse* Debbie Busby, Catrin Rutland, 2019 The Horse is a comprehensive exploration of the biology, behaviour, and diversity of a species that has evolved over

55 million years, and has been of vital importance to us since they were first domesticated 6,000 years ago. *The Horse: A Natural History* looks not only at the horse in the human context, but also at its own story, and at the way horses live and have lived both alongside people and independently. An initial chapter on Evolution & Development takes the reader from the tiny prehistoric Eohippus to modern-day Equus. Subsequent chapters on Anatomy & Biology and Society & Behavior offer a succinct explanation of equine anatomy, and outline the current thinking on horse behavior, incorporating information taken from the most recent research. Chapter 4, *Horses & People*, studies the part the horse has played in human history. Finally, a visually stunning gallery of breeds offers wonderful photographs alongside individual breed profiles. This is an essential addition to every horse enthusiasts library.

applied epic training videos: Computer Vision - ECCV 2022 Shai Avidan, Gabriel Brostow, Moustapha Cissé, Giovanni Maria Farinella, Tal Hassner, 2022-11-02 The 39-volume set, comprising the LNCS books 13661 until 13699, constitutes the refereed proceedings of the 17th European Conference on Computer Vision, ECCV 2022, held in Tel Aviv, Israel, during October 23-27, 2022. The 1645 papers presented in these proceedings were carefully reviewed and selected from a total of 5804 submissions. The papers deal with topics such as computer vision; machine learning; deep neural networks; reinforcement learning; object recognition; image classification; image processing; object detection; semantic segmentation; human pose estimation; 3d reconstruction; stereo vision; computational photography; neural networks; image coding; image reconstruction; object recognition; motion estimation.

applied epic training videos: Image Analysis and Processing - ICIAP 2022 Stan Sclaroff, Cosimo Distanto, Marco Leo, Giovanni M. Farinella, Federico Tombari, 2022-05-14 The proceedings set LNCS 13231, 13232, and 13233 constitutes the refereed proceedings of the 21st International Conference on Image Analysis and Processing, ICIAP 2022, which was held during May 23-27, 2022, in Lecce, Italy, The 168 papers included in the proceedings were carefully reviewed and selected from 307 submissions. They deal with video analysis and understanding; pattern recognition and machine learning; deep learning; multi-view geometry and 3D computer vision; image analysis, detection and recognition; multimedia; biomedical and assistive technology; digital forensics and biometrics; image processing for cultural heritage; robot vision; etc.

applied epic training videos: The Manipulative Education System The Ascendant One, 2021-02-05 The education system has been an interesting topic for decades now. If you want to monitor the progress of a country, start by checking how good its education system is. This book not only exposes the flaws of the education system but also unpacks how these flaws can lead a person to be easily manipulated, economically, socially, culturally and politically. If you are the kind of person who wants to understand how this manipulation works, this book is perfect for you. Prepare and protect yourself from these thought control tactics. Ultimately, it's a matter of personal choice: You can buy pack of cigarettes, a bottle of vodka, a large size family pizza, etc., for the price of this book, or you can experience this one of a kind book which makes you go, HOLY SH*T and use these learnings for the rest of your life. Don't let the authorities, control your thoughts and your choices.

applied epic training videos: Bowker's Complete Video Directory, 1998, 1998

applied epic training videos: Pattern Recognition Apostolos Antonacopoulos, Subhasis Chaudhuri, Rama Chellappa, Cheng-Lin Liu, Saumik Bhattacharya, Umapada Pal, 2024-12-01 The multi-volume set of LNCS books with volume numbers 15301-15333 constitutes the refereed proceedings of the 27th International Conference on Pattern Recognition, ICPR 2024, held in Kolkata, India, during December 1-5, 2024. The 963 papers presented in these proceedings were carefully reviewed and selected from a total of 2106 submissions. They deal with topics such as Pattern Recognition; Artificial Intelligence; Machine Learning; Computer Vision; Robot Vision; Machine Vision; Image Processing; Speech Processing; Signal Processing; Video Processing; Biometrics; Human-Computer Interaction (HCI); Document Analysis; Document Recognition; Biomedical Imaging; Bioinformatics.

applied epic training videos: Enacting Platforms James Malazita, 2024-07-02 An analysis of

the game engine Unreal through feminist, race, and queer theories of technology and media, as well as a critique of the platform studies framework itself. In this first scholarly book on the Unreal game engine, James Malazita explores one of the major contemporary game development platforms through feminist, race, and queer theories of technology and media, revealing how Unreal produces, and is produced by, broader intersections of power. *Enacting Platforms* takes a novel critical platform studies approach, raising deeper questions: what are the material and cultural limits of platforms themselves? What is the relationship between the analyst and the platform of study, and how does that relationship in part determine what “counts” as the platform itself? Malazita also offers a forward-looking critique of the platform studies framework itself. The Unreal platform serves as a kind of technical and political archive of the games industry, highlighting how the techniques and concerns of games have shifted and accreted over the past 30 years. Today, Unreal is also used in contexts far beyond games, including in public communication, biomedical research, civil engineering, and military simulation and training. The author’s depth of technical analysis, combined with new archival findings, contributes to discussions of topics rarely covered in games studies (such as the politics of graphical rendering algorithms), as well as new readings of previously “closed” case studies (such as the engine’s entanglement with the US military and American masculinity in America’s Army). Culture, Malazita writes, is not “built into” software but emerges through human practices with code.

applied epic training videos: Human-Friendly Robotics 2022 Pablo Borja, Cosimo Della Santina, Luka Peternel, Elena Torta, 2023-01-01 This book contains seventeen contributions in the form of independent chapters, covering a broad range of topics related to human-robot interaction at physical and cognitive levels. Each chapter represents a novel piece of work presented during HFR 2022 by researchers in the different areas of robotics, where new theories, methodologies, technologies, challenges, and empirical and experimental studies are discussed. Additionally, this compilation is rich in viewpoints due to the multidisciplinary nature of its authors. Hence, this book represents an excellent opportunity for academics, researchers, and industry partners to get acquainted with the most recent work on human-robot interaction.

applied epic training videos: InfoWorld , 1982-06-21 InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

applied epic training videos: Image Analysis and Processing - ICIAP 2023 Gian Luca Foresti, Andrea Fusiello, Edwin Hancock, 2023-09-04 This two-volume set LNCS 14233-14234 constitutes the refereed proceedings of the 22nd International Conference on Image Analysis and Processing, ICIAP 2023, held in Udine, Italy, during September 11-15, 2023. The 85 full papers presented together with 7 short papers were carefully reviewed and selected from 144 submissions. The conference focuses on video analysis and understanding; pattern recognition and machine learning; deep learning; multi-view geometry and 3D computer vision; image analysis, detection and recognition; multimedia; biomedical and assistive technology; digital forensics and biometrics; image processing for cultural heritage; and robot vision.

applied epic training videos: Training and Development Organizations Directory Janice W. McLean, 1994 This reference is a guide to more than 2500 companies that produce more than 12,000 workshops, seminars, videos and other training programmes that enhance skills and personal development.

applied epic training videos: Deep Learning Theory and Applications Ana Fred, Allel Hadjali, Oleg Gusikhin, Carlo Sansone, 2024-08-20 The two-volume set CCIS 2171 and 2172 constitutes the refereed best papers from the 5th International Conference on Deep Learning Theory and Applications, DeLTA 2024, which took place in Dijon, France, during July 10-11, 2024. The 44 papers included in these proceedings were carefully reviewed and selected from a total of 70 submissions. They focus on topics such as deep learning and big data analytics; machine-learning and artificial intelligence, etc.

applied epic training videos: Multi-Level Reconciliation and Peacebuilding Kevin P.

Clements, SungYong Lee, 2020-12-06 This edited volume examines the group dynamics of social reconciliation in conflict-affected societies by adopting ideas developed in social psychology and the everyday peace discourse in peace and conflict studies. The book revisits the intra- and inter-group dynamics of social reconciliation in conflict-affected societies, which have been largely marginalised in mainstream peacebuilding debates. By applying social psychological perspectives and the discourse of everyday peace, the chapters explore the everyday experience of community actors engaged in social and political reconciliation. The first part of the volume introduces conceptual and theoretical studies that focus on the pros and cons of state-level reconciliation and their outcomes, while presenting theoretical insights into dialogical processes upon which reconciliation studies can develop further. The second part presents a series of empirical case studies from around the world, which examine the process of social reconciliation at community levels through the lens of social psychology and discourse analysis. This book will be of much interest to students of peacebuilding, conflict resolution, social psychology, discourse analysis and international relations in general.

applied epic training videos: Crafting Stories for Virtual Reality Melissa Bosworth, Lakshmi Sarah, 2018-11-09 We are witnessing a revolution in storytelling. Publications all over the world are increasingly using immersive storytelling—virtual reality, augmented reality and mixed reality—to tell compelling stories. The aim of this book is to distill the lessons learned thus far into a useful guide for reporters, filmmakers and writers interested in telling stories in this emerging medium. Examining ground-breaking work across industries, this text explains, in practical terms, how storytellers can create their own powerful immersive experiences as new media and platforms emerge.
