new yorker cartoon of the day: *Cartoon County* Cullen Murphy, 2024-06-04 A poignant history of the cartoonists and illustrators from the Connecticut School For a period of about fifty years, right in the middle of the American Century, many of the the nation's top comic-strip cartoonists, gag cartoonists, and magazine illustrators lived within a stone's throw of one another in the southwestern corner of Connecticut—a bit of bohemia in the middle of those men in their gray flannel suits. Cullen Murphy's father, John Cullen Murphy, drew the wildly popular comic strips Prince Valiant and Big Ben Bolt, and was the heart of this artistic milieu. Comic strips and gag cartoons read by hundreds of millions were created in this tight-knit group— Superman, Beetle Bailey, Snuffy Smith, Rip Kirby, Hagar the Horrible, Hi and Lois, Nancy, Sam & Silo, Amy, The Wizard of Id, The Heart of Juliet Jones, Family Circus, Joe Palooka, and The Lockhorns, among others. Cartoonists and their art were a pop-cultural force in a way that few today remember. Anarchic and deeply creative, the cartoonists were independent spirits whose artistic talents had mainly been forged during service in World War II. Illustrated with never-before-seen photographs, cartoons, and drawings, *Cartoon County* brings the postwar American era alive, told through the relationship of a son to his father, an extraordinarily talented and generous man who had been trained by Norman Rockwell. *Cartoon County* gives us a glimpse into a very special community—and of an America that used to be.

new yorker cartoon of the day: Learning to Love Form 1040 Lawrence Zelenak, 2013-03-29 No one likes paying taxes, much less the process of filing tax returns. For years, would-be reformers have advocated replacing the return-based mass income tax with a flat tax, federal sales tax, or some combination thereof. Congress itself has commissioned studies on the feasibility of a system of exact withholding. But might the much-maligned return-based taxation method serve an important yet overlooked civic purpose? In Learning to Love Form 1040, Lawrence Zelenak argues that filing taxes can strengthen fiscal citizenship by prompting taxpayers to reflect on the contract they have

with their government and the value—or perceived lack of value—they receive in exchange for their money. Zelenak traces the mass income tax to its origins as a means for raising revenue during World War II. Even then, debates raged over the merits of consumption-based versus income taxation, as well as whether taxes should be withheld from payroll or paid at the time of filing. The result is the income tax system we have today—a system whose maddening complexity, intended to accommodate citizens in widely different circumstances, threatens to outweigh any civic benefits. If sitcoms and political cartoons are any indication, public understanding of the income tax is badly in need of a corrective. Zelenak clears up some of the most common misconceptions and closes with suggestions for how the current system could be substantially simplified to better serve its civic purpose.
