Lawrenceville evolved into a lively, walkable neighborhood that barely slept because of the high volume of shift workers at places such as Iron City Brewery, St. Francis Hospital, and the steel mills. Businesses, churches, all-night diners, and other gathering places were easily accessible to residents, and families became closely associated with the landmarks where they worked, worshipped, and socialized. Having celebrated its 200th birthday in 2014, Lawrenceville remains a bustling community with a vitality equal to that of the immigrant days, and it continues to be a place of camaraderie where individuals are dedicated to their neighborhood.

our lady of the angels parish: *Solanus Casey* Catherine Odell, 2007-08-09 To this day, having known a few such great people, I still think that Father Solanus was the saintliest person I ever

knew. -- From the Foreword by Fr. Benedict J. Groeschel, C.F.R. Father Solanus Casey, a gentle, compassionate Capuchin priest from Wisconsin, was the son of Irish immigrants. Although he worked most of his life as a monastery doorkeeper, he was often heralded as a 20th-century saint. People flocked to Father Solanus. Those looking for cures from cancer, heart disease, and tuberculosis. Those seeking help for broken marriages, broken hearts, and broken lives. Those wanting to find spiritual health and renewal. He was remarkably low-key in his approach, but visitors continued to seek him out even after his poor health demanded a move to a small town in Indiana. In 1957, at the age of 86, Father Solanus died at exactly the hour he had started his first Mass, on the same day in July, fifty-three years earlier. Pope John Paul II declared him venerable, the first official step toward sainthood. In showing others that a life-giving faith and a love of God can be both powerful and simple, Father Solanus is a source of encouragement and a model of virtue for the modern world.

Billings, Sean Farrell, 2021-03-04 The first statewide history of the Irish in the Prairie State Today over a million people in Illinois claim Irish ancestry and celebrate their love for Ireland. In this concise narrative history, authors Mathieu W. Billings and Sean Farrell bring together both familiar and unheralded stories of the Irish in Illinois, highlighting the critical roles these immigrants and their descendants played in the settlement and the making of the Prairie State. Short biographies and twenty-eight photographs vividly illustrate the significance and diversity of Irish contributions to Illinois. Billings and Farrell remind us of the countless ways Irish men and women have shaped the history and culture of the state. They fought in the French and Indian War, the American Revolution, the Civil War, and two world wars; built the state's infrastructure and worked in its factories; taught Illinois children and served the poor. Irish political leaders helped to draw up the state's first constitution, served in city, county, and state offices, and created a machine that dominated twentieth-century politics in Chicago and the state. This lively history adds to our understanding of the history of the Irish in the state over the past two hundred fifty years. Illinoisans and Midwesterners celebrating their connections to Ireland will treasure this rich and important account of the state's history.

our lady of the angels parish: Discovering African American St. Louis John Aaron Wright, 2002 African Americans have been part of the story of St. Louis since the city's founding in 1764. Unfortunately, most histories of the city have overlooked or ignored their vital role, allowing their influence and accomplishments to go unrecorded or uncollected; that is, until the publication of *Discovering African American St. Louis: A Guide to Historic Sites* in 1994. A new and updated 2002 edition is now available to take readers on a fascinating tour of nearly four hundred African American landmarks. From the boyhood home of jazz great Miles Davis in East St. Louis, Illinois, to the site of the house that sparked the landmark *Shelley v. Kraemer* court case, the maps, photographs, and text of *Discovering African American St. Louis* record a history that has been neglected for too long. The guidebook covers fourteen regions east and west of the Mississippi that represent St. Louis's rich African American heritage. In the words of historian Gary Kremer, No one who reads this book and visits and contemplates the places and peoples whose stories it recounts will be able to look at St. Louis in the same way ever again.

The authors--ranging from cradle to the grave Catholics to those who haven't practiced for forty years, and everywhere in between--explicitly investigate the interplay between their personal lives and beliefs and the sources of their professional work. our lady of the angels parish: Family Properties Beryl Satter, 2010-03-02 Part family story and part urban history, a landmark investigation of segregation and urban decay in Chicago -- and cities across the nation The promised land for thousands of Southern blacks, postwar Chicago quickly became the most segregated city in the North, the site of the nation's worst ghettos and the target of Martin Luther King Jr.'s first campaign beyond the South. In this powerful book, Beryl Satter identifies the true causes of the city's black slums and the ruin of urban neighborhoods throughout the country: not, as some have argued, black pathology, the culture of poverty, or white flight, but a widespread and institutionalized system of legal and financial exploitation. In Satter's riveting account of a city in crisis, unscrupulous lawyers, slumlords, and speculators are pitched against religious reformers, community organizers, and an impassioned attorney who launched a crusade against the profiteers--the author's father, Mark J. Satter. At the heart of the struggle stand the black migrants who, having left the South with its legacy of sharecropping, suddenly find themselves caught in a new kind of debt peonage. Satter shows the interlocking forces at work in their oppression: the discriminatory practices of the banking industry; the federal policies that created the country's shameful dual housing market; the economic anxieties that fueled white violence; and the tempting profits to be made by preying on the city's most vulnerable population. *Family Properties: Race, Real Estate, and the Exploitation of Black Urban America* is a monumental work of history, this tale of racism and real estate, politics and finance, will forever change our understanding of the forces that transformed urban America. Gripping . . . This painstaking portrayal of the human costs of financial racism is the most important book yet written on the black freedom struggle in the urban North.—David Garrow, *The Washington Post*
