The Inspiration Behind Life as We Knew It

Many readers are curious about what inspired Pfeffer to write a story as intense and thought-provoking as Life as We Knew It. The novel, published in 2006, imagines a world where a meteor collision with

author of life as we knew it: Blast, Corrupt, Dismantle, Erase Brett Josef Grubisic, Gisèle M. Baxter, Tara Lee, 2014-06-16 What do literary dystopias reflect about the times? In *Blast, Corrupt, Dismantle, Erase*, contributors address this amorphous but pervasive genre, using diverse critical methodologies to examine how North America is conveyed or portrayed in a perceived age of crisis, accelerated uncertainty, and political volatility. Drawing from contemporary novels such as Cormac McCarthy's *The Road*, Neil Gaiman's *American Gods*, and the work of Margaret Atwood and William Gibson (to name a few), this book examines dystopian literature produced by North American authors between the signing of NAFTA (1994) and the tenth anniversary of 9/11 (2011). As the texts illustrate, awareness of and deep concern about perceived vulnerabilities—ends of water, oil, food, capitalism, empires, stable climates, ways of life, non-human species, and entire human civilizations—have become central to public discourse over the same period. By asking questions such as “What are the distinctive qualities of post-NAFTA North American dystopian literature?” and “What does this literature reflect about the tensions and contradictions of the inchoate continental community of North America?” *Blast, Corrupt, Dismantle, Erase* serves to resituate dystopian writing within a particular geo-social setting and introduce a productive means to understand both North American dystopian writing and its relevant engagements with a restricted, mapped reality.
