il est ne sheet music: Confederate Sheet Music E. Lawrence Abel, 2015-06-14 During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, The South must not only fight her own battles but sing her own songs and dance to music composed by her own children. Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

il est ne sheet music: The Shadow of God Charles Scribner III, 2007-12-18 The Shadow of God is part memoir, part spiritual autobiography, and part tour of great works of art, literature, and music. In the form of a journal written over the course of a year, Charles Scribner shares childhood recollections of a household where figures like Ernest Hemingway and F. Scott Fitzgerald were family friends. He tells stories from his own noteworthy publishing career, from his journey toward faith, and from his deep knowledge of Baroque art. He asks himself questions like

"How far back can we trace the roots of faith?" Scribner writes with contagious enthusiasm about the pivotal truths he discovered in the novels of Graham Greene and Evelyn Waugh and the inspiration he found in art, music, opera, and the Bible. *The Shadow of God* is a journey through memory, art, and faith that shaped Scribner's year as it passed through the seasons, from Epiphany to Epiphany. il est ne sheet music: Selections from French Travelers in America André Morize, Elliott Mansfield Grant, 1929

il est ne sheet music: French Musical Life Katharine Ellis, 2022 Explicitly or not, the historical musicology of post-Revolutionary France has focused on Paris as a proxy for the rest of the country. This distorting lens is the legacy of political and cultural struggle during the long nineteenth century, indicating a French Revolution unresolved both then and now. In light of the capital's power as the seat of a centralizing French state (which provincials found 'colonizing') and as a cosmopolitan musical crossroads of nineteenth-century Europe, the struggles inherent in creating sustainable musical cultures outside Paris, and in composing local and regionalist music, are ripe for analysis. Replacement of 'France' with Paris has encouraged normative history-writing articulated by the capital's opera and concert life. Regional practices have been ignored, disparaged or treated piecemeal. This book is a study of French musical centralization and its discontents during the period leading up to and beyond the provincial awakening of the Belle Époque. The book explains how different kinds of artistic decentralization and regionalism were hard won (or not) across a politically turbulent century from the 1830s to World War II. In doing so it redraws the historical map of musical power relations in mainland France. Based on work in over 70 archives, chapters on conservatoires, concert life, stage music, folk music and composition reveal how tensions of State and locality played out differently depending on the structures and funding mechanisms in place, the musical priorities of different communities, and the presence or absence of galvanizing musicians. Progressively, the book shifts from musical contexts to musical content, exploring the pressure point of folk music and its translation into local color for officials who perpetually feared national division. Control over composition on the one hand, and the emotional intensity of folk-based musical experience on the other, emerges as a matter of consistent official praxis. In terms of French music and its compositional styles, what results is a surprising new historiography of French neoclassicism, bound into and growing out of a study of diversity and its

limits in daily musical life.
