7 ss gebirgs division prinz eugen im bild: *Hitler's Croatian Ally* Antonio J Muñoz, 2025-07-02 Explores the rise and struggle of the Independent State of Croatia during WWII's brutal Balkans conflict. On 6 April 1941, Nazi Germany, along with Italy and Hungary, invaded Yugoslavia after the overthrow of the Yugoslav regent, Prince Paul. Hitler sought to secure the right flank for his upcoming invasion of the USSR and assist Mussolini, who had failed to conquer Greece. The German attack was swift, and by 17 April, Yugoslavia capitulated, leading to the creation of the Independent State of Croatia (NDH). Ante Pavelić, leader of the fascist Ustaše organization, was installed as the head of Croatia. His government immediately began a brutal campaign of repression against non-Croatians, especially Serbs. This sparked rebellions, with Serbian Chetnik bands and Croatian communists forming separate guerrilla movements. The Croatian state was soon overwhelmed by these insurgencies. Italy further complicated matters by creating occupation zones within Croatia, supporting Chetnik bands, and hampering Croatian military efforts. The Croatian Army, unable to fortify its territory due to Italian restrictions, was often attacked by Chetniks and forced to fight on two fronts. Despite these challenges, including inadequate armament and the constant interference of its allies, Croatia maintained a military force that continued to fight until the war's bitter end.

7 ss gebirgs division prinz eugen im bild: *German Mountain Troops 1942-45* Yves Béraud, 2021-05-26 The author does a terrific job of outlining the many campaigns and areas where the German Mountain troops fought throughout the war, and the unique challenges that some of these areas brought. — AMPS When World War II began, the Wehrmacht had fifteen mountain divisions and a multitude of small units, including some Austrian units that had been incorporated into the German army after the Anschluss. These mountain units would operate in hostile environments on all fronts during World War II. Due to their training, equipment and adaptability, the Gebirgstruppen would be deployed to fight in almost every theater. In the last years of the war they would see action in North Africa, Italy, the Balkans, Norway and Finland, and in the West as the Allies pushed German forces back toward Berlin. This book, the culmination of four decades of research and the support of many veterans and collectors, describes the uniform, equipment, and operations of these specialist units during the later years of World War II. The text is complemented by period photographs taken at the front, including many color photographs, and modern photographs of uniform details.
